

DEBURRING TOOL BASE - FORSTER PRODUCTS, INC. DEBURRING TOOL BASE

[Reloading](#) > [Case Preparation](#) > [Case Mouth Chamfering](#)

This special base for our Inside-Outside Deburring Tool offers speed and saves wear and tear on your hands. When it's installed on your loading bench, the Forster DBT provides instant access and ease-of-operation for chamfering large quantities of cases. The Inside-Outside Deburring Tool can be inserted in the base with either business end ready to perform its critical function. By using the Forster Power Adapter, the DBT Base can also be used with a power drill or screwdriver to make operation even easier and faster. Deburring tool sold separately.

DEBURRING TOOL BASE SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the DEBURRING TOOL BASE from Forster Products, Inc. This safety instruction guide is designed to help you use the product safely and effectively. Please read this document carefully before using the deburring tool base to ensure a safe experience.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always operate the deburring tool base in a welllit area.
- Keep the work area clean and organized to prevent accidents.
- Do not use the deburring tool base if it is damaged or malfunctioning.
- Regularly inspect the deburring tool base for wear and tear.
- Follow all local regulations regarding tool usage and safety.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the tool.

Specific Safety Precautions for Use

- Do not allow children or untrained individuals to use the deburring tool base.
- Avoid wearing loose clothing or jewelry that could get caught in the tool.
- Ensure that your hands are dry and free from oils or grease before handling the tool.
- Do not exceed the recommended speed settings if using a power drill or screwdriver with the tool base.
- Always ensure the tool is securely attached to the base before use.
- If you experience any discomfort or pain while using the tool, stop immediately and consult a professional.

Instructions for Installation and Usage

1. Installation:

- Place the deburring tool base on a stable, flat surface.
- Ensure that the base is securely fastened to the loading bench or work surface.
- Insert the InsideOutside Deburring Tool into the base, ensuring that either business end is ready for use.
- If using the Forster Power Adapter, connect it securely to the deburring tool base and your power drill or screwdriver.

2. Usage:

- Before starting, doublecheck that all components are properly connected and secure.
- Hold the case firmly in place while deburring to prevent movement.
- Operate the tool at a comfortable speed, adjusting as necessary for efficiency and safety.
- After use, turn off the power drill or screwdriver and remove the deburring tool from the base.

Disposal Instructions

- Dispose of the deburring tool base in accordance with local waste management regulations.
- Do not dispose of the tool in household waste.
- If the product is no longer usable, consider recycling where facilities are available.

Contact Information for Further Support

For any inquiries related to safety, usage, or product support, please refer to the contact details provided with your product packaging. Remember to keep this safety instruction guide for future reference.

Please ensure that you adhere to these safety guidelines to promote a safe working environment while using the DEBURRING TOOL BASE. Thank you for your attention to safety!
