

BODY DIES - REDDING 30-06 SPRINGFIELD BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

Attributes

- Name: [REDDING 30-06 SPRINGFIELD BODY DIE](#)
- Manufacturer: [REDDING](#)

BODY DIES REDDING 3006 SPRINGFIELD BODY DIE

Safety Instruction Guide

Introduction

Thank you for choosing the BODY DIES REDDING 3006 SPRINGFIELD BODY DIE. This product is designed to help you resize rifle cases effectively. To ensure safe and proper use, please read this safety instruction guide carefully. It is important to follow the guidelines to minimize risks and ensure a safe reloading experience.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment and procedures before using this product.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials.
- Keep the work area clean and organized to avoid accidents and ensure a safe working environment.
- Store all reloading components, including dies, tools, and ammunition, in a secure location out of reach of children and unauthorized individuals.
- Regularly inspect your reloading equipment for wear and damage. Replace any damaged parts immediately.
- Be aware of the specific characteristics and handling requirements of the 3006 Springfield cartridge.

Specific Safety Precautions for Use

- Only use the BODY DIE with the 3006 Springfield cartridge. Using it with other cartridges may result in improper resizing and potential safety hazards.
- Do not attempt to resize cases that show signs of excessive wear or damage, as this may lead to unsafe conditions.
- After using the body die, always run the case through a neck die to ensure proper neck tension.
- Avoid overtightening the die in the press, as this may cause damage to both the die and the press.
- Keep hands and other body parts clear of moving parts during operation to prevent injury.
- Always follow the manufacturer's instructions for your reloading press and any other equipment used in conjunction with the body die.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted on a stable surface.
- Remove any existing dies from the press, if applicable.
- Insert the BODY DIES REDDING 3006 SPRINGFIELD BODY DIE into the press, following the manufacturer's instructions for your specific press model.
- Adjust the die according to the desired resizing specifications.

2. Usage:

- Prepare your 3006 Springfield cases by cleaning and inspecting them for any damage.
- Insert the case into the press and raise the ram to engage the die.
- Lower the ram to resize the case body and bump the shoulder position. Do not apply excessive force.
- After resizing, remove the case and inspect it for proper sizing.
- Run the resized case through a neck die to achieve the correct neck tension before loading.

Disposal Instructions

- Dispose of any used or damaged cases, components, or packaging in accordance with local regulations.
- Do not dispose of any reloading materials in regular household waste. Follow your local hazardous waste disposal guidelines.

Contact Information for Further Support

For further support or inquiries regarding the BODY DIES REDDING 3006 SPRINGFIELD BODY DIE, please refer to the manufacturer's website or customer service resources. Ensure you have the product information available when seeking assistance.

By following these safety instructions, you can ensure a safer and more effective reloading experience. Thank you for your attention to these guidelines, and happy reloading!
