

# BODY DIES - BODY DIE 260 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

# **BODY DIES BODY DIE 260 REM Safety Instruction Guide**

## **Introduction**

Thank you for purchasing the BODY DIES BODY DIE 260 REM. This guide provides important safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before use and keep it for future reference.

## **General Safety Guidelines**

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage before use.
- Report any unsafe products and accidents to the appropriate authorities.
- Stay updated on product recalls via the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Do not use the BODY DIE for any purpose other than its intended use of resizing cases.
- Ensure that the die is properly installed in your reloading press before use.
- Avoid overtightening the die, which may cause damage.
- Use only cases that have been fired from the same chamber to avoid safety hazards.
- Always follow up the use of the body die with a neck die to achieve proper neck tension.
- Do not attempt to modify or repair the die; contact the manufacturer for assistance if needed.

## **Instructions for Installation and Usage**

### **1. Installation**

- Ensure your reloading press is clean and free from debris.
- Insert the BODY DIE into the reloading press according to the manufacturer's instructions.
- Secure the die in place without overtightening to prevent damage.

### **2. Usage**

- Begin by preparing your fired cases for resizing.
- Place the case in the die and operate the reloading press to full length resize the case body.
- After resizing, check the shoulder position to ensure it is properly bumped for chambering.
- After using the body die, run the resized case through the neck die to achieve proper neck tension.

### **3. PostUse Care**

- Clean the die after each use to remove any residue or debris.
- Store the die in a safe, dry place away from children and pets.

## **Disposal Instructions**

- Dispose of any damaged or unusable parts in accordance with local waste disposal regulations.
- Do not dispose of the product in household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the BODY DIES BODY DIE 260 REM, please refer to the manufacturer's contact information provided with your product.
