

# BODY DIES - REDDING 222 REMINGTON BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

## Attributes

- Name: [REDDING 222 REMINGTON BODY DIE](#)

# **Safety Instruction Guide for BODY DIES REDDING 222 REMINGTON BODY DIE**

## **Introduction**

Thank you for choosing the BODY DIES REDDING 222 REMINGTON BODY DIE. This product is designed to help you resize your cartridge cases effectively. To ensure safe and effective use, please read and follow the guidelines outlined in this safety instruction guide.

## **General Safety Guidelines**

- Always handle the body die with care to prevent injury.
- Ensure that the body die is used in a wellventilated area.
- Keep the body die out of reach of children and vulnerable individuals.
- Inspect the body die regularly for any signs of damage or wear.
- Follow all manufacturer instructions for use and maintenance.
- Report any unsafe conditions or accidents to the appropriate authorities.

## **Specific Safety Precautions for Use**

- Use protective eyewear when operating the body die to prevent eye injuries from debris.
- Wear gloves to protect your hands from sharp edges and potential injuries.
- Ensure that the workspace is clean and free of obstructions to prevent accidents.
- Do not attempt to modify or repair the body die; seek professional assistance if needed.
- Only use the body die with compatible cartridge cases to avoid malfunction or accidents.

## **Instructions for Installation and Usage**

### **Installation**

1. Ensure that your reloading press is securely mounted on a stable surface.
2. Insert the body die into the reloading press according to the manufacturer's instructions.
3. Adjust the die to the correct height for your specific cartridge case.

### **Usage**

1. Prepare your cartridge cases by cleaning and inspecting them for damage.
2. Place the cartridge case into the body die.
3. Operate the reloading press to resize the case body and bump the shoulder position.
4. After resizing, remove the case from the die and inspect it for proper sizing.
5. Follow up by running the resized case through the neck die to achieve proper neck tension.

## **Disposal Instructions**

- Dispose of any damaged or wornout body dies in accordance with local regulations.
- Do not dispose of the body die in regular household waste.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the BODY DIES REDDING 222 REMINGTON BODY DIE, please refer to the manufacturer's website or contact their customer support for assistance. Always ensure that you have the latest information regarding safety recalls or updates.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your BODY DIES REDDING 222 REMINGTON BODY DIE. Thank you for prioritizing safety in your reloading practices.
