

BODY DIES - REDDING 300 WSM BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

BODY DIES REDDING 300 WSM BODY DIE Safety Instruction Guide

Introduction

Thank you for choosing the BODY DIES REDDING 300 WSM BODY DIE. This product is designed to help you resize cartridge cases effectively. It is important to follow safety guidelines and instructions to ensure safe and effective use.

General Safety Guidelines

- Always read the product manual before use.
- Ensure that the die is compatible with your specific cartridge.
- Keep the die and all related equipment out of reach of children and vulnerable individuals.
- Inspect the die for any signs of damage or wear before each use.
- Use protective eyewear when operating the die to protect against debris.
- Ensure your workspace is clean and organized to prevent accidents.
- Do not use the die for purposes other than its intended use.

Specific Safety Precautions for Use

- Handle the die with care to avoid injury.
- Ensure that the die is securely mounted in your reloading press before use.
- Avoid wearing loose clothing or jewelry that could get caught in the equipment.
- Do not exceed the recommended load limits for your cartridge.
- Always follow the manufacturer's guidelines for reloading practices.
- If you experience any unusual resistance or difficulty while resizing, stop immediately and investigate the cause.
- Store the die in a dry, cool place when not in use to prevent corrosion or damage.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is clean and free of any debris.
- Carefully screw the BODY DIE REDDING 300 WSM into the reloading press, ensuring it is tightened securely.
- Make sure the die is set to the correct height for your specific cartridge.

2. Usage:

- Begin by inserting a fired case into the die.
- Apply steady pressure to the handle of the reloading press to resize the case body and bump the shoulder.
- After resizing, remove the case from the die.
- Follow up by running the resized case through a neck die to achieve proper neck tension.
- Inspect the resized case for any defects or issues before use.

Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for recycling options for metal components.
- Ensure that all packaging materials are disposed of responsibly.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the manufacturer's website or contact their customer service directly.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your reloading experience!
