

CARBIDE SIZING BUTTON KIT - 6.5MM CALIBER CARBIDE SIZING BUTTON

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Upgrade your Redding Standard and Type S dies with a carbide sizing button. Makes inside neck sizing smoother and easier without lubrication. Available for bottleneck cartridges in 22 through 30 caliber. The carbide button free floats on the decapping rod allowing it to self-center itself in the case neck. The kit comes complete with a carbide button, retainer, and spare decapping pin. Decap rod not included. Not intended for use on dies other than Redding standard and Type S neck and full length dies.

CARBIDE SIZING BUTTON KIT 6.5MM CALIBER

CARBIDE SIZING BUTTON Safety Instructions

Guide

Introduction

Thank you for choosing the CARBIDE SIZING BUTTON KIT for your reloading needs. This product is designed to enhance the performance of Redding Standard and Type S dies, making inside neck sizing smoother and easier. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your reloading equipment before using the carbide sizing button.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading components.
- Keep the work area clean and organized to prevent accidents.
- Store the carbide sizing button kit in a secure location, out of reach of children and pets.
- Regularly inspect the product for any signs of wear or damage before use.

Specific Safety Precautions for Use

- Do not use the carbide sizing button with dies other than Redding Standard and Type S neck and fulllength dies.
- Ensure that the decapping rod is properly installed and secure before using the carbide button.
- Avoid using excessive force when sizing cases, as this may lead to damage to the button or the die.
- Do not attempt to modify the carbide sizing button or any components of the kit.
- If you experience any unusual resistance or difficulty during use, stop immediately and inspect the equipment for any issues.

Instructions for Installation and Usage

1. Installation of the Carbide Sizing Button:

- Remove the existing decapping pin from your Redding die.
- Insert the carbide sizing button into the die, ensuring it is properly seated.
- Attach the retainer to secure the button in place.
- Reinstall the decapping pin if applicable.

2. Using the Carbide Sizing Button:

- Prepare your cases for resizing by cleaning and inspecting them for any damage.
- Lubrication is not required when using the carbide sizing button, making the process cleaner.
- Insert the case into the die and lower the ram to size the neck of the case.
- Ensure the carbide button selfcenters in the case neck during operation.

3. PostUse:

- After use, clean the carbide sizing button and the die to remove any debris or residue.
- Store the kit in a dry and safe location.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- Do not dispose of the carbide sizing button or other components in regular household waste.

Contact Information for Further Support

For any inquiries regarding the CARBIDE SIZING BUTTON KIT, including safety concerns or product support, please reach out to the relevant contact point in your region.

By following these safety instructions, you can ensure a safe and effective experience while using the CARBIDE SIZING BUTTON KIT. Always stay informed about product recalls and safety updates through the EU Safety Gate platform. Thank you for prioritizing safety in your reloading practices!
