

BODY DIES - REDDING 300 WINCHESTER MAGNUM BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

BODY DIES REDDING 300 WINCHESTER MAGNUM

BODY DIE Safety Instructions

Introduction

Thank you for choosing the BODY DIES REDDING 300 WINCHESTER MAGNUM BODY DIE. This product is designed to safely resize the case body of your ammunition, ensuring proper chambering for your firearm. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the body die in accordance with the manufacturer's instructions.
- Ensure that the product is used in a wellventilated area to avoid inhalation of any particles.
- Keep the body die out of reach of children and unauthorized users.
- Inspect the body die regularly for any signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling ammunition or reloading components.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the body die is compatible with 300 Winchester Magnum cartridges.
- Do not attempt to resize cases that are excessively damaged or deformed.
- Always make sure the firearm is unloaded before using the body die.
- Follow the recommended procedure of running the case through a neck die after using the body die to achieve proper neck tension.
- Avoid using excessive force when resizing cases to prevent damage to the die or cases.
- Store the body die in a secure location when not in use to prevent accidents.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the body die, reloading press, and cases to be resized.
- Ensure your workspace is clean and organized.

2. Installation

- Install the body die into your reloading press according to the manufacturer's instructions.
- Adjust the die to the correct position to ensure proper resizing of the case body.

3. Resizing Process

- Insert the case into the reloading press and position it under the body die.
- Slowly and steadily apply pressure to the press handle to resize the case body.
- Once the resizing process is complete, remove the resized case from the press.

4. PostProcessing

- After using the body die, run the resized case through the neck die to achieve proper neck tension.
- Inspect the resized case for any defects before using it in your firearm.

5. Cleaning and Maintenance

- Clean the body die after use to remove any debris or residue.
- Store the body die in a protective case or container to prevent damage.

Disposal Instructions

- Follow local regulations for the disposal of any waste materials from the reloading process.
- Dispose of damaged or wornout body dies in accordance with local waste management guidelines.

Contact Information for Further Support

For any safety inquiries or support regarding the BODY DIES REDDING 300 WINCHESTER MAGNUM BODY DIE, please reach out to the manufacturer or your local retailer for assistance.

Thank you for prioritizing safety while using this product. Your adherence to these guidelines helps ensure a safe and enjoyable reloading experience.
