

CARBIDE SIZING BUTTON KIT - 7MM CARBIDE SIZING BUTTON

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Upgrade your Redding Standard and Type S dies with a carbide sizing button. Makes inside neck sizing smoother and easier without lubrication. Available for bottleneck cartridges in 22 through 30 caliber. The carbide button free floats on the decapping rod allowing it to self-center itself in the case neck. The kit comes complete with a carbide button, retainer, and spare decapping pin. Decap rod not included. Not intended for use on dies other than Redding standard and Type S neck and full length dies.

CARBIDE SIZING BUTTON KIT 7MM Safety Instruction Guide

Introduction

Thank you for purchasing the CARBIDE SIZING BUTTON KIT 7MM. This guide provides essential safety instructions and recommendations for using this product safely and effectively. Please read all sections carefully before using the product to ensure your safety and the best performance of your equipment.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling and using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use. Do not use if any parts are damaged.
- Follow all local regulations regarding the use and disposal of tools and equipment.

Specific Safety Precautions for Use

- **Avoid Contact with Moving Parts:** Ensure that hands and loose clothing are kept away from moving parts during operation.
- **Proper Handling:** Use caution when installing or removing the carbide sizing button to prevent injury.
- **Lubrication:** This product is designed for use without lubrication. Do not apply any lubricants as it may affect performance.
- **Compatibility:** This product is intended for use exclusively with Redding Standard and Type S neck and fulllength dies. Using it with other dies may result in malfunction or injury.
- **Decapping Rod:** The decapping rod is not included in this kit. Ensure you have the correct rod for your die setup.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components.
- Ensure your workspace is clean and organized.

2. Installation:

- Remove the existing sizing button from your Redding die.
- Carefully attach the carbide sizing button from the kit to the decapping rod. Ensure it is securely fastened.
- Install the decapping rod with the attached carbide button back into the die.

3. Usage:

- Insert the case into the die as per your standard reloading procedure.
- Operate the press according to the manufacturer's instructions, allowing the carbide button to selfcenter in the case neck.
- Inspect the resized cases to ensure proper sizing.

4. PostUse:

- After use, clean the carbide sizing button and surrounding area to remove any debris.
- Store the kit in a safe and dry location, away from children.

Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs or hazardous waste facilities that accept such materials.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please consult the manufacturer's website or customer support resources. Always ensure you have the latest information on product recalls and safety updates.

Thank you for prioritizing safety while using the CARBIDE SIZING BUTTON KIT 7MM. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
