

BODY DIES - 6MM PPC BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

Attributes

BODY DIES 6MM PPC BODY DIE Safety Instruction Guide

Introduction

Thank you for choosing the BODY DIES 6MM PPC BODY DIE. This product is designed to help you resize your cartridge cases effectively. To ensure safe and proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Store the BODY DIE in a safe, dry place away from children and pets.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Regularly inspect the BODY DIE for any signs of wear or damage before each use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the BODY DIE only for its intended purpose of resizing cases for the 6 PPC cartridge.
- Do not attempt to resize cases that are excessively damaged or deformed.
- Ensure that the die is properly mounted and secured in your reloading press before use.
- Do not exceed recommended load specifications when reloading ammunition.
- Follow all manufacturer guidelines for your reloading equipment and components.

Instructions for Installation and Usage

1. Installation:

- Remove the BODY DIE from its packaging.
- Clean the die with a suitable solvent to remove any manufacturing residues.
- Insert the BODY DIE into the reloading press and secure it tightly according to the manufacturer's instructions.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for damage.
- Place the case into the reloading press under the BODY DIE.
- Operate the press to resize the case body and bump the shoulder position.
- After using the BODY DIE, run the resized case through a neck die to achieve proper neck tension.
- Inspect the resized case to ensure it meets safety and performance standards.

Disposal Instructions

- Dispose of any unused or damaged reloading components according to local regulations.
- Do not throw away the BODY DIE in regular household waste. Check for local recycling programs or hazardous waste disposal options.
- Always ensure that any discarded materials are safely stored to prevent accidental access by children or pets.

Contact Information for Further Support

For any questions or concerns regarding the BODY DIES 6MM PPC BODY DIE, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety, and happy reloading!
