

BODY DIES - 6MM BR REMINGTON BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

Attributes

- Name: [6MM BR REMINGTON BODY DIE](#)

Safety Instruction Guide for BODY DIES 6MM BR REMINGTON BODY DIE

Introduction

Thank you for choosing the BODY DIES 6MM BR REMINGTON BODY DIE. This product is designed for precise resizing of rifle cartridge cases to ensure optimal chambering and performance. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your reloading equipment before using the body die.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading tools and materials.
- Keep the workspace clean and organized to prevent accidents and ensure safe handling of equipment and components.
- Store the body die in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the body die for any signs of damage or wear. Do not use if damaged.

Specific Safety Precautions for Use

- Only use the body die with the appropriate cartridge cases (6 mm BR).
- Do not attempt to resize cases that are excessively damaged or deformed.
- Follow the manufacturer's instructions for setup and operation to avoid accidents.
- Ensure that the die is securely mounted in the reloading press before use.
- Avoid direct contact with sharp edges or moving parts during operation.
- Keep hands and other body parts clear of the reloading press during operation.
- Do not exceed the recommended resizing limits for the body die.

Instructions for Installation and Usage

1. Installation:

- Remove the body die from its packaging and inspect it for any damage.
- Securely mount the body die into the reloading press according to the manufacturer's instructions.
- Adjust the die to the desired position for resizing.

2. Usage:

- Prepare the cartridge cases by cleaning and inspecting them for damage.
- Insert the case into the die and ensure it is properly aligned.
- Operate the reloading press to resize the case body and bump the shoulder position.
- After resizing, remove the case and check for proper fit in the chamber.
- Run the resized case through a neck die to achieve proper neck tension before loading.

Disposal Instructions

- Dispose of any damaged or wornout body dies in accordance with local regulations for hazardous materials.
- Recycle packaging materials where possible.
- Do not discard the body die in regular household waste. Follow appropriate disposal methods for metal products.

Contact Information for Further Support

For any inquiries regarding safety or product use, please contact the manufacturer or your point of purchase for assistance. Ensure that you have the product details available for reference.

By following these safety instructions, you can ensure a safe and effective experience with the BODY DIES 6MM BR REMINGTON BODY DIE. Thank you for your attention to safety and compliance.
