

# BODY DIES - REDDING 223 REMINGTON BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

## Attributes

- Name: [REDDING 223 REMINGTON BODY DIE](#)

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing the BODY DIES REDDING 223 REMINGTON BODY DIE. This product is designed to enhance your reloading experience by providing a reliable method for resizing cases. To ensure safe and effective use of this product, please read and follow all safety instructions carefully.

### **General Safety Guidelines**

- Always handle reloading equipment with care and attention.
- Ensure you are familiar with the proper operation of the die before use.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a secure location when not in use, away from children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

### **Specific Safety Precautions for Use**

- Wear appropriate safety gear, including eye protection, while using the body die.
- Avoid wearing loose clothing or accessories that could get caught in machinery.
- Ensure that the die is securely mounted in your reloading press before use.
- Do not attempt to resize cases that show signs of excessive wear or damage.
- Always use the body die in conjunction with a neck die to achieve proper neck tension after resizing.
- Do not exceed recommended load specifications when reloading ammunition.

### **Instructions for Installation and Usage**

#### **1. Installation:**

- Ensure your reloading press is clean and free from debris.
- Securely mount the BODY DIES REDDING 223 REMINGTON BODY DIE into the reloading press according to the manufacturer's instructions.
- Check that the die is properly aligned with the press ram.

#### **2. Usage:**

- Begin by selecting cases that need resizing and inspect them for any damage.
- Insert the case into the die and ensure it is fully seated.
- Operate the press handle smoothly to resize the case body and bump the shoulder position.
- After resizing, remove the case from the die and check for proper fit in your chamber.
- Run the resized case through a neck die to achieve the desired neck tension.
- Repeat the process for additional cases as needed.

### **Disposal Instructions**

- Dispose of any damaged or unusable cases and reloading materials in accordance with local regulations.
- Do not throw away the body die in regular trash; check with local waste management for proper disposal methods.
- Ensure that all materials are disposed of in a manner that is safe for the environment.

## **Contact Information for Further Support**

For any inquiries regarding safety or usage of the BODY DIES REDDING 223 REMINGTON BODY DIE, please refer to the appropriate contact resources provided by the manufacturer.

## **Conclusion**

Following these safety instructions is crucial for ensuring a safe and effective reloading experience. Always prioritize safety and take the necessary precautions when handling reloading equipment. Thank you for your attention to these guidelines, and happy reloading!
