

BODY DIES - 308 WINCHESTER BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

BODY DIES 308 WINCHESTER BODY DIE Safety Instruction Guide

Introduction

Thank you for choosing the BODY DIES 308 WINCHESTER BODY DIE. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the body die to prevent accidents and ensure optimal performance.

General Safety Guidelines

- Always read and understand the manufacturer's instructions before using the body die.
- Ensure that the body die is used in a wellventilated area to avoid inhalation of any particles.
- Keep the body die and all related equipment out of reach of children and vulnerable individuals.
- Inspect the body die for any visible damage before use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the body die.
- Be aware of your surroundings and ensure that no one is in close proximity while you are using the body die.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Avoid Neck Sizing:** The BODY DIES is designed specifically for body resizing and does not resize the neck. Always follow up with a neck die for proper neck tension.
- **Proper Chambering:** Ensure that the resized cases fit properly in your firearm's chamber. Improperly sized cases can lead to dangerous malfunctions.
- **Repeated Use:** If you notice that your cases are becoming increasingly difficult to chamber after repeated firings, consider using the body die to resize them.
- **Handling:** Handle the body die with care. Avoid dropping or mishandling it to prevent damage.
- **Storage:** Store the body die in a dry place and in its original packaging to protect it from dust and moisture.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the BODY DIES, a press, and a neck die.
- Ensure your workspace is clean and organized.

2. Installation:

- Secure the BODY DIES in the reloading press according to the manufacturer's instructions.
- Make sure it is firmly attached to prevent any movement during operation.

3. Usage:

- Insert the case into the body die.
- Operate the press to resize the case body and bump the shoulder position.
- Remove the case from the die once the resizing is complete.
- Follow up by running the resized case through a neck die to achieve proper neck tension.

4. PostUse:

- Clean the body die after use to remove any residue or debris.
- Store the body die in its original packaging or a safe location.

Disposal Instructions

- Dispose of any damaged or unusable body dies in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the BODY DIES 308 WINCHESTER BODY DIE, please refer to the manufacturer's contact information provided on the packaging or product documentation.

By following these safety instructions, you can ensure a safe and effective experience with your BODY DIES 308 WINCHESTER BODY DIE. Thank you for prioritizing safety and compliance with EU General Product Safety Regulations.
