

# WILSON CASE GAGE - 35 REMINGTON CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

## Attributes

- Name: [35 REMINGTON CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003856
- Mfr. No.: CG-35R
- Cartridge: 35 Remington
- Delivery weight: 0.159kg
- Shipping height: 33mm
- Shipping width: 36mm
- Shipping length: 84mm
- UPC: 857949005708

# WILSON CASE GAGE 35 REMINGTON CASE GAGE

## Safety Instructions

### Introduction

Thank you for choosing the WILSON CASE GAGE 35 REMINGTON CASE GAGE. This guide provides essential safety instructions and usage guidelines to ensure your safe and effective use of this product. Please read this manual carefully to understand the safety precautions and proper handling of the gage.

### General Safety Guidelines

- Always use the gage in accordance with the manufacturer's instructions.
- Keep the gage out of reach of children and vulnerable individuals.
- Inspect the gage for any damage or wear before use. Do not use if damaged.
- Ensure your work area is clean, dry, and welllit to prevent accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- If you experience any issues with the gage, discontinue use immediately and seek assistance.

### Specific Safety Precautions for Use

- **Handling:** Handle the gage with care to avoid dropping or damaging it.
- **Measuring:** Use the gage only for its intended purpose of measuring cartridge cases. Do not use it for any other applications.
- **Calibration:** Regularly check the calibration of the gage to ensure accurate measurements.
- **Resizing:** When using resizing dies, follow the manufacturer's specifications to avoid oversizing brass.
- **Storage:** Store the gage in a safe place when not in use to prevent accidental damage or misuse.

### Instructions for Installation and Usage

#### 1. Setting Up the Gage:

- Ensure that your reloading press is properly set up and secured.
- Attach the gage to the press using the appropriate mounting hardware.

#### 2. Measuring Cartridge Cases:

- Insert the cartridge case into the gage.
- Use a caliper to measure headspace and overall length as needed.
- Check for any discrepancies that may indicate the need for trimming or resizing.

#### 3. Adjustable Style Use:

- For belted magnums, ensure that the resizing is minimal at the shoulder to prolong the life of the case.
- Regularly monitor the condition of the case and adjust resizing procedures as necessary.

#### 4. Regular Maintenance:

- Clean the gage after each use to remove any debris or residue.
- Store the gage in a protective case to prevent damage.

## **Disposal Instructions**

- Dispose of the gage in accordance with local regulations.
- Do not dispose of the gage in regular household waste.
- If the gage is damaged beyond repair, contact your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the WILSON CASE GAGE 35 REMINGTON CASE GAGE, please reach out to the designated EU contact point for safety inquiries. Ensure that you have the product details ready for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the WILSON CASE GAGE 35 REMINGTON CASE GAGE. Thank you for prioritizing safety in your reloading activities.
