

WILSON CASE GAGE - 7.62X39MM CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [7.62X39MM CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003862
- Mfr. No.: CG-762
- Cartridge: 7.62 x 39 mm
- Delivery weight: 0.136kg
- Shipping height: 30mm
- Shipping width: 36mm
- Shipping length: 84mm
- UPC: 857949005135

WILSON CASE GAGE 7.62X39MM CASE GAGE

Safety Instructions

Introduction

Thank you for choosing the WILSON CASE GAGE 7.62X39MM CASE GAGE. This product is designed to help you accurately measure and resize cartridge cases, ensuring safe and effective reloading. This safety instruction guide provides essential information to ensure your safety and the proper use of this product.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Keep the gage out of reach of children and vulnerable individuals.
- Inspect the gage for any damage or defects before use. Do not use if damaged.
- Use the gage only for its intended purpose as described in this manual.
- Ensure that your workspace is clean and free from obstructions.
- Wear appropriate safety gear, such as safety glasses, when reloading.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Cartridge Compatibility:** This gage is specifically designed for the 7.62 x 39 mm cartridge. Do not use it with other calibers.
- **Headspace Measurement:** Improper headspace can lead to dangerous malfunctions. Ensure the gage is used correctly to measure headspace accurately.
- **Resizing:** Avoid oversizing your brass. Regularly check resized cases with the gage to ensure proper dimensions.
- **Caliper Use:** Use a caliper in conjunction with the gage for accurate measurements. Follow the manufacturer's instructions for the caliper.
- **Belted Magnums:** If using the adjustable style for belted magnums, be mindful that resizing should be minimal at the shoulder to prolong case life.

Instructions for Installation and Usage

1. **Setup:** Place the gage on a flat, stable surface.
2. **Measuring Overall Length:**
 - Insert the cartridge case into the gage.
 - Check the overall length indicator to determine if trimming is necessary.
3. **Measuring Headspace:**
 - Use a caliper to measure the datum to head length of the fired case.
 - Compare measurements to ensure correct headspace.
4. **Adjusting for Belted Magnums:**
 - If using the adjustable style, adjust the gage according to the manufacturer's instructions.
 - Ensure the case is properly supported by the belt during measurement.
5. **Regular Maintenance:** Clean the gage after each use to maintain accuracy and longevity.

Disposal Instructions

- Dispose of the product according to local regulations.
- Do not dispose of the gage in regular household waste if it is damaged or no longer usable. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support, please consult the relevant authorities or your retailer.

Thank you for using the WILSON CASE GAGE 7.62X39MM CASE GAGE responsibly. Your safety is our priority.
