

WILSON CASE GAGE - L.E. WILSON 30-30 WINCHESTER CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 30-30 WINCHESTER CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003942

Safety Instruction Guide for WILSON CASE GAGE L.E. WILSON 3030 WINCHESTER CASE GAGE

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 3030 WINCHESTER CASE GAGE. This guide provides essential safety information and instructions to ensure the safe and effective use of your case gage. Please read this guide carefully before using the product.

General Safety Guidelines

- Always ensure that the case gage is used in a clean and dry environment to avoid contamination and damage.
- Handle the case gage with care to prevent drops or impacts that could affect its accuracy.
- Keep the case gage out of reach of children and vulnerable individuals to avoid accidental injury or misuse.
- Regularly inspect the case gage for any signs of wear or damage. Do not use it if it appears compromised.
- Follow all local laws and regulations regarding the handling and use of reloading equipment.

Specific Safety Precautions for Use

- When using the case gage, ensure that you wear appropriate safety gear, such as safety glasses, to protect your eyes from potential debris.
- Avoid oversizing your brass, as this can lead to dangerous malfunctions when reloading ammunition.
- Always doublecheck measurements to ensure that they conform to the recommended specifications for your firearm.
- Use the case gage only for its intended purpose, as specified in this guide. Misuse can lead to inaccurate measurements and unsafe reloading practices.
- Do not attempt to disassemble or modify the case gage, as this may compromise its safety and effectiveness.

Instructions for Installation and Usage

Using the Regular Style Case Gage

1. **Preparation:** Ensure your workspace is clean and organized.
2. **Measuring Overall Length:** Insert the cartridge case into the gage to check the overall length. If the case exceeds the recommended length, trimming is necessary.
3. **Checking Headspace:** Use a caliper to measure the datum to head length. This will help ensure correct headspace and prevent oversizing.
4. **Final Check:** After adjustments, recheck the measurements to confirm they are within safe limits.

Using the Adjustable Style Case Gage

1. **Preparation:** As with the regular style, ensure your workspace is clean.
2. **Measuring Belted Mags:** Insert the belted mag case into the gage. The belt should provide support for proper headspace.
3. **Resizing:** Minimize resizing at the shoulder to prolong the life of the case.
4. **Final Check:** Confirm all measurements are within the safe limits before proceeding with reloading.

Disposal Instructions

- Dispose of any damaged or worn case gages in accordance with local regulations.
- Do not throw away the case gage in regular household waste. Check with local recycling or hazardous waste facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use and safety of the WILSON CASE GAGE L.E. WILSON 3030 WINCHESTER CASE GAGE, please refer to the manufacturer's contact information provided with the product packaging. It is important to have access to support for any safety inquiries.

Conclusion

Your safety is our priority. By following the guidelines outlined in this instruction manual, you can ensure a safe and effective experience while using the WILSON CASE GAGE L.E. WILSON 3030 WINCHESTER CASE GAGE. Always stay informed about updates and safety alerts regarding the product. Thank you for your attention to safety.
