

# WILSON CASE GAGE - L.E. WILSON 6MM REMINGTON CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.  
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

## Attributes

- Name: [L.E. WILSON 6MM REMINGTON CASE GAGE](#)
- Manufacturer: [L.E. WILSON, INC.](#)
- Product no.: 749003944
- Mfr. No.: CG-6244R
- Cartridge: 6 mm Remington
- Delivery weight: 0.159kg
- Shipping height: 30mm
- Shipping width: 36mm
- Shipping length: 86mm
- UPC: 857949005852

# WILSON CASE GAGE L.E. WILSON 6MM REMINGTON CASE GAGE Safety Instruction Guide

## Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 6MM REMINGTON CASE GAGE. This guide provides essential safety instructions and best practices for using this product. Please read this manual carefully to ensure safe and effective use.

## General Safety Guidelines

- Ensure the gage is used in a welllit and clean environment.
- Always handle the gage with clean hands to avoid contamination.
- Keep the gage away from children and unauthorized users.
- Inspect the gage for any damage or wear before use.
- Do not use the gage if it is damaged or malfunctioning.
- Follow all local laws and regulations regarding ammunition and reloading practices.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper use may lead to oversizing brass, resulting in unsafe ammunition.
  - Using a damaged gage can lead to inaccurate measurements, posing safety risks.
- **Avoiding Hazards:**
  - Always check the gage for proper calibration before use.
  - Use the gage only for its intended purpose – measuring cartridge case lengths and headspace.
  - Do not force the gage into the cartridge case; this can cause damage to both the gage and the case.
- **Age Specific Warnings:**
  - This product is intended for use by adults who are knowledgeable in reloading practices. Keep out of reach of children.

## Instructions for Installation and Usage

- **Setup:**
  - Ensure the gage is clean and free from debris.
  - Place the gage on a stable, flat surface for accurate measurement.
- **Using the Gage:**
  - Insert the cartridge case into the gage.
  - Check the overall length and headspace using a caliper if necessary.
  - If the case exceeds the recommended length, trim it accordingly.
- **Adjustable Style:**
  - For belted magnum cases, ensure the belt is properly seated in the gage.

- Minimize resizing at the shoulder to prolong the life of the case.

## **Disposal Instructions**

- Dispose of any damaged or unusable gages according to local regulations.
- Do not throw the gage in regular household waste. Contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the WILSON CASE GAGE L.E. WILSON 6MM REMINGTON CASE GAGE, please refer to the product packaging or visit the manufacturer's website for assistance.

By following these guidelines, you can ensure safe and effective use of the WILSON CASE GAGE L.E. WILSON 6MM REMINGTON CASE GAGE. Thank you for your attention to safety.
