

# WILSON CASE GAGE - L.E. WILSON 50 BMG CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

## Attributes

- Name: [L.E. WILSON 50 BMG CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003948
- Mfr. No.: CG-50BMG
- Cartridge: 50 BMG
- Delivery weight: 0.204kg
- Shipping height: 41mm
- Shipping width: 46mm
- Shipping length: 150mm
- UPC: 076683166494

## GAGE Safety Instructions

### Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 50 BMG CASE GAGE. This guide provides essential safety instructions, usage guidelines, and contact information for support. Please read this document carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a cartridge case gage.
- Always inspect the gage for any visible damage before each use.
- Store the gage in a safe place, away from children and pets.
- Do not modify or attempt to repair the gage; this may compromise safety.
- Follow all local laws and regulations regarding the handling and use of ammunition components.

### Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the gage.
- Keep hands clear of moving parts during operation.
- Use the gage on a stable surface to prevent accidents.
- Avoid using the gage in wet or damp conditions to prevent slips and electrical hazards.
- If you experience any discomfort or unusual resistance while using the gage, stop immediately and inspect the tool.

### Instructions for Installation and Usage

#### Setting Up the Gage

1. **Preparation:** Ensure that you have a clean and dry workspace. Gather all necessary tools, including a caliper.
2. **Inspect the Gage:** Check the gage for any signs of wear or damage. Do not use if damaged.
3. **Using the Gage:**
  - For Regular Style:
    - Insert the cartridge case into the gage.
    - Check the overall length to determine if trimming is needed.
    - Measure the datum to head length to ensure proper headspace.
  - For Adjustable Style:
    - Adjust the gage as necessary for belted magnum cases.
    - Insert the cartridge case and check for proper headspace.
    - Minimize resizing at the shoulder to prolong case life.
4. **Measuring:** Use a caliper to accurately measure headspace and overall length.

#### Maintenance

- Clean the gage regularly to ensure accurate measurements.
- Store the gage in its original packaging or a protective case when not in use.

### Disposal Instructions

- Dispose of the gage in accordance with local regulations.
- If the gage is no longer functional or needed, consider recycling it if possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the WILSON CASE GAGE L.E. WILSON 50 BMG CASE GAGE, please refer to the manufacturer's website or customer service for assistance.

By adhering to these safety instructions, you can ensure the safe use of your WILSON CASE GAGE L.E. WILSON 50 BMG CASE GAGE. Thank you for prioritizing safety!
