

WILSON CASE GAGE - 270 WSM CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper heads space, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [270 WSM CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003957
- Mfr. No.: CG-27SM
- Cartridge: 270 WSM (Winchester Short Mag)
- Delivery weight: 0.159kg
- Shipping height: 33mm
- Shipping width: 36mm
- Shipping length: 86mm
- UPC: 857949005548

WILSON CASE GAGE 270 WSM CASE GAGE Safety Instructions

Introduction

Thank you for choosing the WILSON CASE GAGE 270 WSM CASE GAGE. This product is designed to assist in the reloading process by ensuring proper headspace and overall length of cartridge cases. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always handle the WILSON CASE GAGE with care to avoid injury.
- Ensure that the gage is used in a welllit and stable workspace.
- Keep the gage out of reach of children and vulnerable individuals.
- Inspect the gage for any signs of damage or wear before each use. Do not use a damaged gage.
- Follow all local regulations and guidelines for reloading ammunition.

Specific Safety Precautions for Use

- **Headspace Measurement:** Ensure that you understand how to measure headspace correctly. Improper measurements can lead to unsafe reloading practices.
- **Oversizing Prevention:** Be cautious when resizing brass. Oversizing can lead to dangerous malfunctions when firing.
- **Caliper Usage:** Use a reliable caliper for measuring fired cases. Ensure that the caliper is calibrated and in good condition.
- **Adjustable Style Use:** When using the adjustable style for belted magnums, ensure that you are aware of how the belt affects headspace. Minimize resizing at the shoulder to prolong case life.
- **Trimming:** Regularly check overall length and trim cases as necessary to ensure safety and performance.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted and stable.
- Attach the 7/8"14 press type fulllength resizing die according to the manufacturer's instructions.

2. Measuring Headspace:

- Insert the fired cartridge case into the WILSON CASE GAGE.
- Use a caliper to measure the headspace.
- Compare the measurement to the specifications for your cartridge to ensure it is within safe limits.

3. Checking Overall Length:

- Place the cartridge case in the gage.
- Verify the overall length. If the case exceeds the specified length, trim it accordingly.

4. Adjusting for Belted Magnums:

- For belted magnums, ensure that the case is properly supported by the belt.
- Avoid excessive resizing at the shoulder to maintain the integrity of the case.

5. Regular Maintenance:

- Clean the gage regularly to remove debris and ensure accurate measurements.
- Store the gage in a dry place to prevent rust and corrosion.

Disposal Instructions

- Dispose of any damaged or wornout gages in accordance with local regulations.
- Do not dispose of the gage in regular household waste. Check for local recycling or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or concerns regarding the WILSON CASE GAGE 270 WSM CASE GAGE, please refer to the contact information provided with your product packaging or visit the manufacturer's website for further assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your WILSON CASE GAGE. Thank you for prioritizing safety in your reloading practices.
