

WILSON CASE GAGE - 6.5X47MM LAPUA CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [6.5X47MM LAPUA CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003976
- Mfr. No.: CG-6547L
- Cartridge: 6.5 x 47 mm Lapua
- Delivery weight: 0.159kg
- Shipping height: 30mm
- Shipping width: 36mm
- Shipping length: 86mm
- UPC: 857949005784

WILSON CASE GAGE 6.5X47MM LAPUA CASE GAGE

Safety Instructions

Introduction

Thank you for choosing the WILSON CASE GAGE 6.5X47MM LAPUA CASE GAGE. This product is designed to assist in the precise measurement and resizing of cartridge cases. It is important to follow safety guidelines to ensure safe and effective use. This document provides essential safety instructions and guidelines in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the case gage is used in a clean and welllit environment.
- Keep the gage out of reach of children and vulnerable individuals.
- Inspect the gage for any damage before use. Do not use if damaged.
- Follow all manufacturer recommendations for use and maintenance.
- Report any unsafe product conditions or accidents to the appropriate authorities.
- Stay informed about product recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the gage only for its intended purpose—measuring and checking cartridge cases.
- Avoid oversizing your brass. Regularly check the headspace of fired cases.
- When using the adjustable style gage for belted magnums, monitor the shoulder resizing closely to prevent damage.
- Always use a caliper in conjunction with the gage for accurate measurements.
- Do not force the gage into cases that do not fit; this can lead to damage or injury.
- Wear safety glasses to protect your eyes from potential debris during use.

Instructions for Installation and Usage

Installation

1. Ensure that the working area is clean and free of obstructions.
2. Confirm that you have all necessary tools, including a caliper and the case gage.
3. If using the adjustable style, set the gage according to the manufacturer's instructions.

Usage

1. Measuring Overall Length:

- Insert the cartridge case into the gage.
- Check the overall length against the specifications. If trimming is required, proceed to trim the case.

2. Measuring Headspace:

- Use a caliper to measure the datum to head length.
- Ensure that the measurement aligns with the acceptable headspace standards for your specific cartridge.

3. Adjusting for Belted Magnums:

- When using the adjustable style, ensure it is properly set to accommodate the belt.
- Regularly check the shoulder area to maintain the integrity of the case.

4. PostUse Care:

- Clean the gage after each use to maintain accuracy and longevity.
- Store the gage in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the WILSON CASE GAGE in accordance with local regulations.
- Do not dispose of the gage in regular household waste if it is damaged or no longer functional.
- Consider recycling options where available.

Contact Information for Further Support

For any inquiries or support regarding the WILSON CASE GAGE, please refer to the appropriate channels as indicated on the packaging or product documentation.
