

WILSON CASE GAGE - 308 WINCHESTER CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [308 WINCHESTER CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003988

WILSON CASE GAGE 308 WINCHESTER CASE GAGE

Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE 308 WINCHESTER CASE GAGE. This tool is designed to assist in the reloading process by ensuring proper headspace and overall length of cartridge cases. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- **Product Safety:** Ensure safe use of this nonfood product by following all instructions carefully.
- **Enhanced Recalls:** Be aware that standardized recall notices may be issued for dangerous products. Always check for updates.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements.
- **Special Consumer Focus:** Extra caution should be exercised when this product is used around vulnerable groups, such as children.
- **EU Contact Point:** For safety inquiries, contact the designated EU-based support.
- **Rapid Alerts:** Stay informed about unsafe products through the EU's Safety Gate system.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use can lead to oversizing of brass, affecting the performance of your firearm.
 - Ensure that your press and resizing dies are compatible with this gage.
- **Avoiding Hazards:**
 - Always measure cases before resizing to prevent oversizing.
 - Use a caliper for accurate headspace measurements.
 - Inspect the gage regularly for any signs of wear or damage.
- **Age-Specific Warnings:**
 - This product is intended for use by adults only. Keep out of reach of children.

Instructions for Installation and Usage

- **Setup:**
 - Ensure that your reloading press is properly secured and stable.
 - Attach the 7/8"14 resizing die according to the manufacturer's instructions.
- **Using the Gage:**
 - Insert the cartridge case into the gage.
 - Measure the overall length to determine if trimming is necessary.
 - Check the datum to head length to ensure correct headspace.
- **For Adjustable Style Gage:**
 - Use this gage specifically for belted magnum cartridges.
 - Monitor the shoulder area to minimize resizing and prolong case life.
- **Regular Checks:**
 - Perform regular checks on your cases to ensure they meet safety specifications.
 - Always document measurements for future reference.

Disposal Instructions

- Dispose of any damaged or worn gages according to local regulations.
- Recycle components where applicable.
- Do not dispose of in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the WILSON CASE GAGE 308 WINCHESTER CASE GAGE, please refer to the manufacturer's official website or designated support channels for assistance.

By following these guidelines, you can ensure a safe and effective experience with your WILSON CASE GAGE. Thank you for your attention to safety.
