

30-06 SPRINGFIELD CUSTOM GRADE FULL LENGTH DIE - 30-06 SPRINGFIELD FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grad New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Full Length Dies feature Hornady's Zip Spindle, which holds the decap spindle in a lightly threaded collet to make it easy to adjust and center exactly in the die. The decap pins are headed steel, and strong enough to decap crimped military cases. The expander balls are long, smooth, threaded, and elliptical in shape. This reduces or eliminates case neck stretching and keeps expander from pulling loose. Cases may be necked up in these dies without a separate expander.

Attributes

- Name: [30-06 SPRINGFIELD FULL LENGTH SIZING DIE](#)
- Manufacturer: [HORNADY](#)

Safety Instruction Guide for 3006 Springfield Custom Grade Full Length Die

Introduction

Thank you for choosing the 3006 Springfield Custom Grade Full Length Die. This guide provides essential safety instructions and usage guidelines to ensure your safe and effective use of this reloading product. Please read this document carefully before using the die.

General Safety Guidelines

- Always handle all reloading equipment with care and in accordance with the manufacturer's instructions.
- Ensure that you are familiar with the reloading process and the specific requirements for the 3006 Springfield cartridge.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Inspect the die regularly for any signs of wear or damage. Do not use if there are any visible defects.
- Store the die in a cool, dry place when not in use, and keep it in its original packaging to prevent damage.
- If you experience any issues during use, cease operation immediately and consult the manufacturer or a qualified professional.

Specific Safety Precautions for Use

- Ensure that you are using the die in a wellventilated area to avoid inhalation of dust or fumes.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, while reloading.
- Be aware of the potential hazards associated with reloading, such as the risk of accidental discharge or explosion.
- Avoid overtightening the die, as this may lead to damage or malfunction.
- Use only the recommended components and materials specified by the manufacturer for reloading.
- Follow all local laws and regulations regarding reloading and the use of ammunition.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Attach the 3006 Springfield Full Length Die to the press, ensuring it is properly aligned.
- Tighten the die lock ring to secure the die in place.

2. Usage

- Insert an empty cartridge case into the die.
- Adjust the decap spindle using the Zip Spindle feature for precise centering.
- Follow the reloading process for sizing and decapping as per your reloading manual.
- Inspect each case after resizing to ensure it meets specifications and is free of defects.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any damaged or worn reloading components in accordance with local waste disposal regulations.
- Do not throw away ammunition or reloading components in regular trash. Instead, contact local authorities for proper disposal methods.

- Recycle packaging materials where possible, following local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your 3006 Springfield Custom Grade Full Length Die. Always prioritize safety and consult professional resources if you have any questions or concerns. Thank you for your attention to these important safety guidelines.
