

8X57MM MAUSER CUSTOM GRADE FULL LENGTH DIE - 8X57MM MAUSER FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grad New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Full Length Dies feature Hornady's Zip Spindle, which holds the decap spindle in a lightly threaded collet to make it easy to adjust and center exactly in the die. The decap pins are headed steel, and strong enough to decap crimped military cases. The expander balls are long, smooth, threaded, and elliptical in shape. This reduces or eliminates case neck stretching and keeps expander from pulling loose. Cases may be necked up in these dies without a separate expander.

Attributes

Safety Instruction Guide for 8X57MM Mauser Custom Grade Full Length Die

Introduction

Thank you for choosing the 8X57MM Mauser Custom Grade Full Length Die. This product is designed for safe and efficient reloading of ammunition. It is important to follow all safety guidelines and instructions to ensure proper use and to minimize risks associated with reloading.

General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that you are familiar with the principles of ammunition reloading and the specific characteristics of the 8X57MM Mauser cartridge.
- Use only in wellventilated areas to avoid inhalation of any dust or fumes.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Wear protective eyewear to shield your eyes from potential debris during the reloading process.
- Use gloves to protect your hands from sharp edges and any potential chemicals.
- Avoid overtightening the die during installation to prevent damage.
- Ensure that the decap pins are correctly seated to avoid breakage.
- Do not attempt to reload ammunition if you are under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free from debris.
- Carefully screw the 8X57MM Mauser Full Length Die into the reloading press until it is securely in place.
- Adjust the die using the Zip Spindle to ensure it is centered correctly.
- Insert the decap spindle and ensure it is securely seated.

2. Usage:

- Begin the reloading process by preparing your cases. Inspect them for any damage.
- Insert the case into the die and lower the press handle to resize the case.
- Follow the manufacturer's recommendations for powder and bullet selection.
- After resizing, remove the case and check for proper dimensions.
- Repeat the process for each case until all cases are resized.

3. PostUse:

- After completing the reloading process, clean the die to remove any residue.
- Store the die in the provided custom plastic box to protect it from damage.

Disposal Instructions

- Dispose of any used or damaged components according to local regulations.
- Do not throw away the die or any parts in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the 8X57MM Mauser Custom Grade Full Length Die, please refer to the product packaging or visit the manufacturer's website for more information.

By following these guidelines, you can ensure a safe and enjoyable reloading experience. Always prioritize safety and stay informed about best practices in ammunition reloading.
