

# SINCLAIR FIRING PIN REMOVAL TOOL FOR REMINGTONS - SINCLAIR INTERNATIONAL FIRING PIN REMOVAL TOOL FOR REMINGTON RIFLES

[Gunsmith Tools](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Firing Pin Removal Tools](#)

Our bolt disassembly tool makes removing the firing pin, spring and shroud assembly from the bolt body an easy task. This tool fits the 40X, 600, 660, Model, 7, XP-100, 700, 721, XR-100 and 722 actions plus the Kelbly Stolle actions. Does not work for 40X rimfire actions. This tool is designed to pull back and hold the cocking piece as the shroud, pin and spring assembly is unscrewed from the bolt body. This needs to be done to clean the assembly and apply new light oil several times a year. The bolt should also be disassembled and inspected if a primer cup may need to be removed from the bolt body. The tool has a non-marring Delrin body and is very easy and fast to use. Most competitive shooters carry a bolt tool for their action to every match.

## Attributes

- Name: [SINCLAIR INTERNATIONAL FIRING PIN REMOVAL TOOL FOR REMINGTON RIFLES](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749004116

# Safety Instruction Guide for Sinclair Firing Pin Removal Tool

## Introduction

Thank you for choosing the Sinclair Firing Pin Removal Tool for Remingtons. This guide provides important safety instructions and guidelines to ensure the safe and effective use of the tool. Please read this manual carefully before use.

## General Safety Guidelines

- Ensure the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, such as safety glasses, when using the tool.
- Inspect the tool before each use for any signs of wear or damage.
- Do not use the tool if it is damaged or malfunctioning.
- Follow all manufacturer instructions and recommendations for use.

## Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before attempting to disassemble the bolt.
- Be cautious of sharp edges and moving parts when using the tool.
- Do not force the tool if it does not easily fit or engage with the bolt.
- Use the tool in a welllit area to ensure visibility during use.
- Avoid using excessive force, which may damage the tool or the firearm.
- Store the tool in a safe and dry location when not in use.

## Instructions for Installation and Usage

### 1. Preparing the Firearm:

- Ensure the firearm is completely unloaded.
- Remove any ammunition from the vicinity.

### 2. Using the Tool:

- Position the tool on the bolt assembly.
- Pull back the cocking piece using the tool.
- Carefully unscrew the shroud, pin, and spring assembly from the bolt body.
- Inspect the assembly for dirt or debris and clean as necessary.
- Apply a light oil to the assembly as needed.

### 3. Reassembling the Bolt:

- Align the shroud, pin, and spring assembly back onto the bolt body.
- Screw the assembly back into place securely.
- Ensure the cocking piece is released and in the correct position.

### 4. Final Inspection:

- Doublecheck that all components are securely fastened.
- Perform a final inspection of the firearm to ensure it is in proper working condition.

## **Disposal Instructions**

- Dispose of any damaged or wornout tools in accordance with local regulations.
- Do not dispose of the tool in regular household waste.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Sinclair Firing Pin Removal Tool, please refer to the manufacturer's contact details provided with the product packaging.

Remember to always prioritize safety and follow the guidelines outlined in this manual for a successful and safe experience with your Sinclair Firing Pin Removal Tool.
