

NECK SIZING DIES - REDDING NECK SIZING DIE 7MM REM MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Redding Neck Sizing Die Safety Instruction Guide

Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read and follow these instructions carefully to avoid any hazards associated with its use.

General Safety Guidelines

- Always handle the die and associated equipment with care.
- Ensure that your workspace is clean and organized to prevent accidents.
- Use personal protective equipment such as safety glasses and gloves when handling reloading materials.
- Keep the die out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of damage or wear. Do not use a damaged die.
- Follow all local laws and regulations regarding the use and storage of reloading equipment and materials.

Specific Safety Precautions for Use

- Ensure that the die is compatible with your specific rifle and cartridge type (7mm Remington Magnum).
- Do not interchange fired cases between different rifles, as this can lead to unsafe conditions.
- Always follow the manufacturer's instructions for the setup and use of the die.
- Avoid overtightening the die in the press, as this can cause damage or malfunction.
- Use only the recommended lubricants and cleaning products to maintain the die.
- Store the die in a dry, cool place when not in use to prevent corrosion.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Insert the Redding Neck Sizing Die into the reloading press according to the manufacturer's instructions.
- Adjust the die to the appropriate position for the cartridge being used.
- Tighten the locking ring to secure the die in place.

2. Usage

- Prepare your brass cases by cleaning and inspecting them for damage.
- Lubricate the cases as per the manufacturer's recommendations.
- Insert the case into the die and operate the press to resize the neck of the case.
- Remove the resized case and inspect it for proper sizing.
- Repeat the process for all cases, ensuring consistent results.

Disposal Instructions

- Dispose of any used or damaged dies in accordance with local regulations.
- Recycle packaging materials where possible.
- Ensure that any hazardous materials associated with reloading are disposed of responsibly.

Contact Information for Further Support

For any questions or concerns regarding the Redding Neck Sizing Die, please refer to the manufacturer's

website or customer support services for assistance.

By following these guidelines, you can ensure a safe and enjoyable reloading experience with your Redding Neck Sizing Die. Thank you for prioritizing safety in your reloading practices.
