

# NECK SIZING DIES - REDDING NECK SIZING DIE 243 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 243 WIN](#)
- Manufacturer: [REDDING](#)

# Safety Instruction Guide for Redding Neck Sizing Die 243 Win

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your neck sizing die. Please read this document carefully before use to understand the proper handling and safety measures.

## General Safety Guidelines

- Ensure that the Redding Neck Sizing Die is used only for its intended purpose: sizing the necks of bottleneck cases.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment and materials.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a safe, dry place away from children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Only use the Redding Neck Sizing Die with compatible cartridges, specifically the 243 Winchester.
- Never interchange fired cases between different rifles, as the neck sizing die does not resize the shoulder or body of the case.
- Avoid using excessive force when operating the die, as this may cause damage to the die or the cases.
- Follow the manufacturer's instructions for setting up and using the die to ensure proper functioning.
- If you experience any issues while using the die, stop immediately and consult the troubleshooting section of the manual or seek assistance.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure your reloading press is securely mounted and stable.
- Clean and lubricate the die threads if necessary to ensure smooth operation.
- Install the Redding Neck Sizing Die into your reloading press according to the manufacturer's instructions.

### 2. Preparing Cases:

- Inspect each fired case for damage, including cracks or deformities.
- Clean the cases thoroughly to remove any debris or residue.

### 3. Sizing Process:

- Insert the case into the die and raise the ram of the press to size the neck of the case.
- Apply steady and even pressure to ensure proper sizing without excessive force.
- Lower the ram and remove the sized case from the die.

### 4. Post Use:

- Clean the die after each use to remove any residue.

- Store the die in its original packaging or a protective case to prevent damage.

## Disposal Instructions

- Dispose of any damaged or unusable parts of the die in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the die in regular household waste. Check local guidelines for proper disposal methods.

## Contact Information for Further Support

For any inquiries or further assistance regarding the Redding Neck Sizing Die, please refer to the manufacturer's website or customer service resources.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die. Always prioritize safety and proper handling to enjoy the benefits of your reloading equipment.
