

# NECK SIZING DIES - REDDING NECK SIZING DIE 223 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 223 REM](#)

# Safety Instruction Guide for Redding Neck Sizing Die 223 Rem

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before use.

## General Safety Guidelines

- Ensure that all reloading equipment is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment and materials.
- Keep the workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, in a secure location out of the reach of children.
- Regularly inspect equipment for signs of wear or damage before use.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use the Redding Neck Sizing Die only with .223 Remington cartridges.
- Do not interchange fired cases between different rifles, as this can lead to unsafe conditions.
- Ensure that the die is properly mounted in the reloading press before use.
- Avoid using excessive force when resizing cases, as this may damage the die or the cases.
- Be aware of the potential for brass shavings and debris during the resizing process; clean the area afterward.
- Do not use the die if it is damaged or if you notice any irregularities during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is clean and free of debris.
- Insert the Redding Neck Sizing Die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

### 2. Usage:

- Prepare your fired .223 Remington cases by cleaning them thoroughly.
- Lubricate the necks of the cases lightly using a suitable case lube to prevent sticking.
- Place a case in the shell holder of the reloading press.
- Operate the press to size the neck of the case, ensuring that you apply smooth and even pressure.
- Remove the resized case and inspect it for any defects or irregularities.
- Repeat the process for all cases as needed.

## Disposal Instructions

- Dispose of any damaged or wornout dies responsibly, following local regulations for metal recycling.
- Do not dispose of any reloading materials in regular household waste.
- Follow local guidelines for the disposal of hazardous materials, if applicable.

## **Contact Information for Further Support**

For questions or concerns regarding the Redding Neck Sizing Die, please refer to the manufacturer's website or contact their customer service for assistance.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective reloading experience.
