

WILSON NECK REAMER - L.E. WILSON 338 CALIBER (0.3405"-0.341") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

WILSON NECK REAMER L.E. WILSON 338 CALIBER (0.3405"0.341") INSIDE NECK REAMER Consumer Safety Instruction Guide

Introduction

Thank you for choosing the WILSON NECK REAMER L.E. WILSON 338 CALIBER. This product is designed to ensure safe and effective reaming of case necks for precision shooting. It is important to follow the safety guidelines outlined in this manual to ensure your safety and the safety of others.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the reamer for damage or wear before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use protective eyewear and gloves when operating the reamer to prevent injury.
- Do not use the reamer for any purpose other than intended.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Before using the neck reamer, ensure that your workspace is clear and organized to prevent accidents.
- Always secure the case firmly in the trimmer to avoid slippage during the reaming process.
- Do not apply excessive force when using the reamer; let the tool do the work to avoid breakage or injury.
- If you experience any difficulty or resistance while using the reamer, stop immediately and inspect the tool and the case.
- Follow specific guidelines for reamer sizing to avoid excessive material removal which can lead to safety hazards.

Instructions for Installation and Usage

1. Installation:

- Remove the trimmer cutter from your Wilson trimmer.
- Insert the neck reamer into the trimmer in place of the cutter, ensuring it is securely fastened.
- Check that the reamer is properly aligned and that it rotates freely.

2. Usage:

- Place the fired, unsized case into the trimmer.
- Turn the trimmer handle slowly to begin the reaming process.
- Monitor the reaming closely, stopping periodically to check the progress and ensure proper sizing.
- Once the desired neck clearance is achieved, remove the case and inspect it for uniformity.

3. PostUse:

- After use, clean the neck reamer to remove any debris or residue.
- Store the reamer in a safe, dry place away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any damaged or worn reamers according to local regulations for hazardous waste.
- Recycle materials where possible, ensuring that any nonrecyclable parts are disposed of safely.

Contact Information for Further Support

For questions or concerns regarding the WILSON NECK REAMER, please consult the manufacturer's website or contact their customer support team directly.

By following these guidelines, you can ensure the safe and effective use of the WILSON NECK REAMER L.E. WILSON 338 CALIBER. Always prioritize safety and consult the appropriate resources for any further information.
