

WILSON NECK REAMER - L.E. WILSON 22 CALIBER (0.2265"-0.227") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

Attributes

- Name: [L.E. WILSON 22 CALIBER \(0.2265"-0.227"\) INSIDE NECK REAMER](#)

WILSON NECK REAMER L.E. WILSON 22 CALIBER

Safety Instruction Guide

Introduction

Thank you for choosing the WILSON NECK REAMER L.E. WILSON 22 CALIBER. This product is designed to help you achieve optimal performance in your reloading process by removing excess neck material from cases. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions provided in this manual.

General Safety Guidelines

- Always handle the neck reamer with care to avoid injury.
- Ensure that you are using the reamer in a welllit and clean workspace.
- Keep the reamer out of reach of children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves while operating the reamer.
- Inspect the reamer for any damage before use. Do not use if damaged.
- Follow all manufacturer guidelines and recommendations for use.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the reamer is properly secured in the trimmer before use.
- Do not exceed the recommended reamer size for your specific cases.
- Avoid applying excessive force when using the reamer to prevent breakage or injury.
- Always work with fired, unsized cases to achieve the best results.
- Be aware of the sharp edges of the reamer and handle it with caution.
- If you are unsure about the reamer's operation, consult with an experienced user or professional.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the reamer, trimmer, and PPE.
- Ensure your workspace is clean and organized.

2. Installation:

- Carefully remove the neck reamer from its packaging.
- Insert the reamer into the Wilson trimmer in place of the trimmer cutter.
- Ensure that the reamer is securely fastened and properly aligned.

3. Usage:

- Select the appropriate reamer size based on your case specifications.
- Place the fired, unsized case into the trimmer.
- Activate the trimmer to begin the reaming process, applying gentle and even pressure.
- Monitor the reaming process to ensure consistent results.
- Once done, remove the case and inspect it for proper neck clearance.

4. PostUse Care:

- Clean the reamer and trimmer after use to prevent debris accumulation.

- Store the reamer in a safe place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any damaged or worn reamers in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the reamer in regular household waste if it is considered hazardous.

Contact Information for Further Support

For any questions or concerns regarding the WILSON NECK REAMER, please refer to the manufacturer's website or customer service for assistance. It is important to keep informed about product recalls or safety updates through the EU's Safety Gate platform.

By following these guidelines, you can ensure a safe and effective experience with your WILSON NECK REAMER. Thank you for your attention to safety and best practices.
