

# WILSON NECK REAMER - L.E. WILSON 30 CALIBER (0.311"-0.3115") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

# Safety Instruction Guide for WILSON NECK REAMER L.E. WILSON 30 CALIBER

## Introduction

Thank you for choosing the WILSON NECK REAMER L.E. WILSON 30 CALIBER. This tool is designed to help you achieve optimal performance when reaming case necks. It is important to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure the reamer is used only for its intended purpose.
- Always read and understand the instructions before use.
- Keep the reamer out of reach of children and vulnerable individuals.
- Inspect the reamer for damage before each use. Do not use if damaged.
- Store the reamer in a safe location when not in use to prevent accidents.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Be aware of your surroundings and ensure that you have a clear workspace.

## Specific Safety Precautions for Use

- Use the reamer only with fired, unsized cases to ensure proper fit.
- Do not exceed the recommended size specifications of .0025" .003" larger than bullet diameter.
- Avoid applying excessive force while reaming to prevent tool damage and personal injury.
- Always maintain a firm grip on the reamer during use to prevent slips.
- Do not attempt to modify the reamer or use it for purposes other than intended.
- Be cautious of sharp edges and points; handle the reamer with care.
- Ensure that your hands and the reamer are dry to maintain a secure grip.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure your workspace is clean and welllit.

### 2. Installation:

- Insert the neck reamer into the Wilson trimmer in place of the trimmer cutter.
- Ensure that the reamer is securely seated and tightened to prevent movement during use.

### 3. Usage:

- Carefully position the case neck into the reamer.
- Turn the trimmer handle slowly and steadily to allow the reamer to cut evenly.
- Monitor the reaming process to ensure the desired neck thickness is achieved.
- After use, remove the case and inspect it to ensure it meets specifications.

### 4. PostUse:

- Clean the reamer after each use to remove any debris or residue.
- Store the reamer in its protective case or a safe location.

## **Disposal Instructions**

- Dispose of the reamer according to local regulations regarding tool disposal.
- If the reamer is damaged beyond repair, consider recycling metal components if possible.
- Do not dispose of the reamer in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the WILSON NECK REAMER L.E. WILSON 30 CALIBER, please reach out to your local retailer or manufacturer support.

By following these guidelines, you can ensure a safe and effective experience with your WILSON NECK REAMER. Thank you for prioritizing safety and compliance with EU regulations.
