

BODY DIES - REDDING BODY DIE 17 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

Safety Instruction Guide for BODY DIES REDDING BODY DIE 17 REM

Introduction

Thank you for choosing the BODY DIES REDDING BODY DIE 17 REM. This product is designed to help you resize cases for proper chambering. It is important to follow safety guidelines to ensure safe and effective use. This guide provides essential safety instructions, precautions, and disposal information.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose: resizing cases without affecting the neck.
- Always handle the die with care to avoid injury.
- Keep the die out of reach of children and pets.
- Inspect the die regularly for any signs of damage or wear before use.
- Use protective eyewear when operating reloading equipment.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always read and understand the manufacturer's instructions before using the die.
- Ensure that the die is securely mounted in the reloading press before use.
- Do not attempt to resize cases that are excessively damaged or worn.
- Avoid using excessive force when resizing cases; this can lead to equipment failure or personal injury.
- Ensure that the workspace is clean and organized to prevent accidents.
- Use appropriate personal protective equipment (PPE), such as gloves and safety glasses.
- Do not leave the equipment unattended while in use.

Instructions for Installation and Usage

1. Installation:

- Clean the reloading press to remove any debris or residue.
- Securely attach the BODY DIE REDDING BODY DIE 17 REM to the reloading press according to the manufacturer's instructions.
- Ensure that all connections are tight and stable.

2. Usage:

- Place the case that needs resizing into the die.
- Gradually raise the ram of the press to engage the die with the case.
- Apply steady pressure until the resizing process is complete.
- Once resized, remove the case from the die.
- It is recommended to follow up with a neck die to achieve proper neck tension after using the body die.

Disposal Instructions

- Dispose of any damaged or unusable parts of the die according to local regulations for hazardous waste.
- Recycle packaging materials where possible.
- Do not dispose of the die in regular household waste if it is damaged or poses a safety risk.

Contact Information for Further Support

For any questions or concerns regarding the BODY DIES REDDING BODY DIE 17 REM, please refer to the manufacturer's contact information provided with the product. Always ensure that you have the most current information regarding safety and product usage.

By following these guidelines, you can help ensure a safe and effective reloading experience with your BODY DIES REDDING BODY DIE 17 REM. Thank you for prioritizing safety!
