

BODY DIES - 6.5-284 WINCHESTER (NORMA) BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

Attributes

- Name: [6.5-284 WINCHESTER \(NORMA\) BODY DIE](#)

BODY DIES 6.5284 WINCHESTER (NORMA) BODY DIE Safety Instruction Guide

Introduction

Thank you for choosing the BODY DIES 6.5284 WINCHESTER (NORMA) BODY DIE. This product is designed to help you resize your rifle cases for optimal performance. To ensure safe and effective use of this product, please read this safety instruction guide carefully. It outlines important safety information, usage instructions, and disposal guidelines in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle the body die with care to avoid injury.
- Ensure that you are using the body die in a wellventilated area.
- Keep the body die out of reach of children and vulnerable individuals.
- Regularly inspect the body die for any signs of wear or damage before use.
- Do not attempt to modify or repair the body die yourself.
- Use the body die only for its intended purpose as described in this guide.

Specific Safety Precautions for Use

- Wear safety glasses to protect your eyes from potential debris during resizing.
- Use gloves to protect your hands from sharp edges and hot surfaces.
- Ensure that the body die is securely mounted in the reloading press before use.
- Avoid using excessive force when resizing cases, as this may damage the die or the cases.
- Always follow the manufacturer's instructions for the reloading press you are using in conjunction with the body die.
- If you experience difficulty chambering cases after resizing, do not force the case into the chamber.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Carefully insert the body die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during use.

2. Usage:

- Begin by preparing the cases you intend to resize. Ensure they are clean and free of any obstructions.
- Place a case into the shell holder of the reloading press.
- Slowly raise the ram to bring the case into contact with the body die.
- Apply steady pressure to resize the case body and bump the shoulder position.
- After resizing, remove the case from the press and inspect it for proper sizing.
- Follow up by running the case through a neck die to achieve the desired neck tension.

Disposal Instructions

- Dispose of any damaged or worn body dies in accordance with local waste disposal regulations.
- Do not dispose of the body die in regular household waste.
- If you are unsure about disposal methods, contact your local waste management authority for guidance.

Contact Information for Further Support

For any questions or concerns regarding the BODY DIES 6.5284 WINCHESTER (NORMA) BODY DIE, please reach out to your local retailer or the manufacturer for assistance. Ensure you have your product details on hand for a more efficient response.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the BODY DIES 6.5284 WINCHESTER (NORMA) BODY DIE. Always prioritize safety and compliance with regulations to protect yourself and others during the reloading process. Thank you for your attention to these important guidelines.
