Safety Instruction Guide for the 17/20 Caliber Piloted Flash Hole Deburring Tool

Introduction

Thank you for choosing the 17/20 Caliber Piloted Flash Hole Deburring Tool from Sinclair International. This tool is designed to ensure case uniformity of chamber depth for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the tool is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the tool.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of wear or damage before use.
- Store the tool in a dry place, away from moisture and extreme temperatures.

Specific Safety Precautions for Use

- Use only the recommended neck pilots for the 17 and 20 caliber sizes. Using larger neck pilots may compromise safety and effectiveness.
- Avoid placing fingers near the cutting edge while deburring to prevent injury.
- Do not apply excessive force when using the tool. Let the tool do the work to avoid accidents.
- Use the tool in a well-lit area to ensure visibility and precision during operation.
- If you experience any discomfort or unusual resistance while using the tool, stop immediately and inspect it for problems.

Instructions for Installation and Usage

1. Installation of Neck Pilots:

- Select the appropriate neck pilot for your caliber (17 or 20).
- Insert the neck pilot into the deburring tool until it is securely in place.
- Ensure that the pilot is correctly aligned and locked before proceeding.

2. Using the Deburring Tool:

- Place the case mouth over the neck pilot.
- Gently push down on the tool to engage the cutting edge with the inside of the case mouth.
- Rotate the tool slightly to achieve a uniform deburring effect.
- Remove the tool and inspect the case mouth for a clean edge.

3. Post-Use Care:

- Clean the tool after each use to remove any debris or residue.
- Store the tool and neck pilots in a protective case to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn-out tools responsibly. Check local regulations for proper disposal methods.
- Do not dispose of the tool in regular household waste. Consider recycling options where available.

Contact Information for Further Support

For any safety inquiries, product support, or to report unsafe products, please contact the designated EUbased support team listed on the product packaging or visit the official Sinclair International website.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your 17/20 Caliber Piloted Flash Hole Deburring Tool. Thank you for your attention to safety.
