

# FULL LENGTH DIE SETS - RCBS FULL LENGTH 2-DIE SET 30-30 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

## Attributes

- Name: [RCBS FULL LENGTH 2-DIE SET 30-30 WIN](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004589
- Mfr. No.: 14601
- Cartridge: 30-30 Winchester
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.249kg
- Shipping height: 41mm
- Shipping width: 58mm
- Shipping length: 135mm
- UPC: 076683146014

# Safety Instruction Guide for RCBS Full Length 2DIE Set 3030 Win

## Introduction

Thank you for choosing the RCBS Full Length 2DIE Set for your reloading needs. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this document carefully before using the die set.

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Keep the die set and all reloading components out of reach of children.
- Always use the die set in a wellventilated area to avoid inhaling any dust or fumes.
- Wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Ensure that you are familiar with the reloading process and have received proper training if you are a beginner.
- Regularly inspect your equipment for wear and damage. Replace any worn or damaged parts immediately.

## Specific Safety Precautions for Use

- Always lubricate cases before full length sizing to prevent stuck cases in the die.
- Use a cartridge headspace gauge tool to ensure the correct shoulder bump during the sizing process.
- Do not exceed the recommended load specifications for your cartridges.
- Avoid distractions while reloading to maintain focus and safety.
- Store all reloading components and tools in a secure location to prevent unauthorized access.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Securely mount the press on a sturdy workbench to prevent movement during operation.
- Insert the full length sizing die into the press and tighten it according to the manufacturer's instructions.
- Adjust the die position to ensure proper sizing of the case.

### 2. Using the Full Length Sizing Die:

- Lubricate the cases before inserting them into the die.
- Raise the ram of the press to push the case into the die for sizing.
- Lower the ram to extract the sized case from the die.
- Check the dimensions of the case using a gauge to ensure it meets specifications.

### 3. Using the Seater Die:

- Install the seater die in the press following the same procedure as the sizing die.
- Adjust the die to achieve the desired bullet seating depth.
- Place a charged case into the die and raise the ram to seat the bullet.
- Lower the ram to remove the seated cartridge from the die.

### 4. Crimping the Case (if desired):

- If you wish to crimp the case, adjust the seater die to the appropriate crimp setting.
- Follow the same procedure as above to crimp the case while seating the bullet.

## Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management authorities for guidance on the safe disposal of hazardous materials.

## Contact Information for Further Support

For any questions or concerns regarding the use of the RCBS Full Length 2DIE Set, please reach out to the appropriate customer service or technical support channels available in your region. Always ensure that you are following the latest safety regulations and guidelines.

Thank you for prioritizing safety in your reloading practices. Enjoy your reloading experience with the RCBS Full Length 2DIE Set!
