

FULL LENGTH DIE SETS - RCBS FULL LENGTH 2-DIE SET 7MM REM. MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

Attributes

- Name: [RCBS FULL LENGTH 2-DIE SET 7MM REM. MAG](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004598
- Mfr. No.: 13601
- Cartridge: 7 mm Remington Magnum
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.386kg
- Shipping height: 41mm
- Shipping width: 112mm
- Shipping length: 152mm

Safety Instruction Guide for RCBS Full Length 2Die Set 7mm Rem. Mag

Introduction

Thank you for choosing the RCBS Full Length 2Die Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read and follow these instructions carefully.

General Safety Guidelines

- Ensure safe use of the die set by following the manufacturer's instructions.
- Always use the die set in a wellventilated area.
- Keep the die set out of reach of children and pets.
- Inspect the die set for any damage or wear before each use.
- Use appropriate personal protective equipment, such as safety glasses and gloves, when handling reloading materials.
- Be aware of the potential hazards associated with reloading ammunition, including the risks of handling powders and primers.

Specific Safety Precautions for Use

- **Lubrication:** Always lubricate cases before full length sizing to prevent stuck cases in the die.
- **Headspace Measurement:** Use a cartridge headspace gauge tool to ensure proper shoulder bump.
- **Crimping:** Adjust the seater die to crimp bullets only if necessary. Improper crimping can lead to unsafe ammunition.
- **Storage:** Store the die set in a dry, cool place to prevent rust and corrosion.
- **DistractionFree Environment:** Avoid distractions while reloading to maintain focus and safety.
- **Emergency Procedures:** Familiarize yourself with emergency procedures in case of an accident or incident related to reloading.

Instructions for Installation and Usage

1. Setup:

- Securely mount the reloading press on a stable work surface.
- Ensure the press is level and firmly attached to minimize movement during operation.

2. Installing the Dies:

- Unscrew the lock ring on the full length sizing die and insert it into the press.
- Adjust the die to the desired position and tighten the lock ring.
- Repeat the process for the seater die.

3. Reloading Process:

- Start with the full length sizing die to resize the case. Ensure the die is properly adjusted to bump the shoulder as needed.
- Inspect the resized case for proper dimensions.
- Insert the expander ball through the neck of the case to size it for bullet seating.
- Place the bullet on the case mouth and position the case in the seater die.
- Adjust the seater die for the desired bullet seating depth and crimping, if applicable.
- After seating, inspect the completed cartridge for quality assurance.

4. Cleaning and Maintenance:

- Clean the dies after use to prevent residue buildup.
- Store the dies in their original packaging or a designated storage container.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Follow safety guidelines when disposing of reloading materials, including primers and powders.

Contact Information for Further Support

For any questions or concerns regarding the RCBS Full Length 2Die Set, please refer to the manufacturer's contact resources for assistance. It is important to have access to support for any safety inquiries or product-related issues.

Conclusion

Following these safety instructions will help ensure a safe and effective reloading experience with the RCBS Full Length 2Die Set. Remember to always prioritize safety and consult this guide whenever you are using the product. Thank you for your attention to these important safety measures.
