

FULL LENGTH DIE SETS - FULL LENGTH 2-DIE SET 270 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

Attributes

- Name: [FULL LENGTH 2-DIE SET 270 WIN](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004613

Safety Instruction Guide for FULL LENGTH DIE SETS FULL LENGTH 2DIE SET 270 WIN

Introduction

Thank you for choosing the FULL LENGTH DIE SETS FULL LENGTH 2DIE SET 270 WIN. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read and follow all instructions carefully to maximize your safety and the performance of your reloading process.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Ensure that your workspace is clean, organized, and free from distractions.
- Keep all reloading materials, including powder and primers, in a secure location away from children and pets.
- Store the die set in a dry place to prevent rust and corrosion.
- Follow the manufacturer's instructions for all components used in the reloading process.
- Regularly inspect your equipment for wear and damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of the die set can lead to dangerous situations, including misfires or damage to your firearm.
- Ensure cases are properly lubricated before full length sizing to avoid stuck cases.
- Always use the correct cartridge headspace gauge tool to measure the shoulder bump accurately.

- **Avoiding Hazards:**

- Never exceed recommended load limits when reloading ammunition.
- Do not use the die set in a manner for which it was not intended.
- Ensure that the press is securely mounted and stable before use.
- Keep your hands and face clear of the die set when operating the press.

- **Agespecific Warnings:**

- This product is intended for use by adults only. Keep out of reach of children.
- Ensure that inexperienced users are supervised by a knowledgeable adult when using the die set.

Instructions for Installation and Usage

- **Installation:**

1. Ensure the reloading press is securely mounted on a stable surface.
2. Select the appropriate die for your reloading process: the full length sizing die or the seater die.
3. Insert the die into the press and tighten it securely to prevent movement during operation.
4. Adjust the die height according to your specific reloading requirements.

- **Usage:**

1. Lubricate cases before inserting them into the sizing die to prevent sticking.
2. Use the full length sizing die to resize the body and bump the shoulder of the case.
3. After sizing, use the seater die to properly seat the bullet in the case.
4. Adjust the seater die for crimping if desired by raising or lowering the die position in the press.
5. Inspect each completed round for proper seating and crimping before use.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not dispose of hazardous materials (such as spent primers or powder) in regular household waste.
- Contact your local waste management authority for guidance on the safe disposal of hazardous materials.

Contact Information for Further Support

For any inquiries or support regarding the FULL LENGTH DIE SETS FULL LENGTH 2DIE SET 270 WIN, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety instructions. Enjoy your reloading experience safely and responsibly!
