

# FULL LENGTH DIE SETS - RCBS FULL LENGTH 2-DIE SET 7MM-08 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

## Attributes

- Name: [RCBS FULL LENGTH 2-DIE SET 7MM-08 REM](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004629
- Mfr. No.: 13901
- Cartridge: 7 mm - 08 Remington
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.748kg
- Shipping height: 46mm
- Shipping width: 112mm
- Shipping length: 152mm
- UPC: 076683139016

# Safety Instruction Guide for RCBS Full Length 2Die Set 7MM08 Rem

## Introduction

Thank you for choosing the RCBS Full Length 2Die Set for your reloading needs. This guide provides essential safety instructions and precautions to ensure the safe and effective use of your reloading equipment. Please read this guide thoroughly before using the product.

## General Safety Guidelines

- Ensure that you are familiar with all components of the die set before use.
- Always wear appropriate safety gear, including safety glasses, when reloading.
- Keep your workspace clean and organized to prevent accidents.
- Store the die set in a safe, dry place away from children and pets.
- Regularly inspect the die set for signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

- **Lubrication:** Always lubricate cases before fulllength sizing to prevent stuck cases.
- **Adjustments:** Make adjustments to the die set only when the press is not in operation to avoid accidental injuries.
- **Headspace:** Use a cartridge headspace gauge tool to ensure proper shoulder bump and headspace.
- **Seating Bullets:** When seating bullets, ensure that the bullet is aligned with the case to prevent jamming or misfires.
- **Crimping:** Only crimp if necessary; improper crimping can lead to dangerous ammunition.
- **Ventilation:** Work in a wellventilated area to avoid inhaling any dust or fumes from reloading materials.

## Instructions for Installation and Usage

### 1. Setting Up the Die Set:

- Unpack the die set and ensure all components are present: fulllength sizing die, seater die, and any additional tools.
- Attach the sizing die to the reloading press according to the manufacturer's instructions.
- Adjust the die to the desired height for proper sizing of the cases.

### 2. Sizing the Cases:

- Apply lubricant to the cases.
- Insert the case into the sizing die and operate the press to size the case.
- Remove the case and check for proper sizing and shoulder bump.

### 3. Seating Bullets:

- Insert the bullet into the case mouth.
- Adjust the seater die to the desired depth and operate the press to seat the bullet.
- Check the overall length of the loaded cartridge to ensure it meets specifications.

### 4. Crimping (if applicable):

- If crimping is desired, adjust the seater die to the crimp setting and operate the press.

- Ensure the crimp is consistent and secure.

#### **5. Final Inspection:**

- Inspect each finished cartridge for defects before storage or use.

## **Disposal Instructions**

- Dispose of any spent primers, excess lubricant, and damaged components in accordance with local regulations.
- Do not throw away reloading materials in regular household waste.
- Contact local waste management services for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of your RCBS Full Length 2Die Set, please refer to the manufacturer's website or contact their customer service for assistance.
