

WILSON NECK REAMER - L.E. WILSON 20 CALIBER (0.202") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

WILSON NECK REAMER L.E. WILSON 20 CALIBER (0.202") INSIDE NECK REAMER Safety Instruction Guide

Introduction

Thank you for choosing the WILSON NECK REAMER L.E. WILSON 20 CALIBER (0.202"). This guide provides essential safety instructions to ensure the safe and effective use of the neck reamer. Please read this document thoroughly before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of neck reamers and related equipment before use.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against potential hazards.
- Keep the work area clean and welllit to prevent accidents.
- Store the neck reamer in a safe location, out of reach of children and pets.
- Regularly inspect the neck reamer for any signs of damage or wear. Do not use if damaged.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Sharp edges: The cutting edges of the reamer are sharp and can cause cuts.
 - Improper handling: Mishandling may lead to accidents or injuries.
- **Avoiding Hazards:**
 - Always handle the neck reamer with care, keeping fingers away from the cutting edges.
 - Ensure the reamer is securely attached to the Wilson trimmer before use.
 - Do not force the reamer; if it does not cut smoothly, stop and inspect for issues.
- **Age Restrictions:**
 - This product is intended for adult use only. Keep out of reach of children.

Instructions for Installation and Usage

1. Installation:

- Ensure the Wilson trimmer is unplugged before installation.
- Remove the existing trimmer cutter by following the manufacturer's instructions.
- Carefully insert the neck reamer into the trimmer, ensuring it is securely fitted.
- Doublecheck that the reamer is properly aligned and locked in place.

2. Usage:

- Prepare the fired, unsized cases for reaming.
- Adjust the trimmer to the appropriate settings as per the manufacturer's guidelines.
- Slowly and steadily feed the case into the neck reamer to remove excess neck material.
- Monitor the process to ensure even cutting and avoid excessive pressure.
- After use, clean the reamer to remove any debris or residue.

Disposal Instructions

- Dispose of the neck reamer responsibly. If it is damaged beyond repair, ensure it is discarded in a manner that prevents injury to others.

- Follow local regulations for the disposal of metal tools and equipment.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the contact information provided by the retailer or manufacturer. They will assist you with any questions or concerns regarding the use of this product.

This safety instruction guide is designed to ensure the safe and effective use of the WILSON NECK REAMER. By following these guidelines, you can help prevent accidents and ensure a positive reaming experience. Thank you for your attention to safety.
