

# NECK SIZING DIES - NECK SIZING DIE, .223 WSSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Neck Sizing will enable the reloader to retain the fire formed dimensions of their cases rather than resizing the entire case. Neck sizing can prolong case life and eliminate some problems associated with excessive headspace. Like the Forster Full Length Sizing Dies, neck dies also included and E-Z Out Expander button assembly and Cross Bolt Lock Ring.

## Attributes

- Name: [NECK SIZING DIE, .223 WSSM](#)
- Manufacturer: [FORSTER](#)
- Product no.: 749004771
- Mfr. No.: 006418

# NECK SIZING DIES NECK SIZING DIE, .223 WSSM

## Safety Instruction Guide

### Introduction

Thank you for choosing the NECK SIZING DIES NECK SIZING DIE, .223 WSSM by Forster. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading die. Please read this document carefully before use.

### General Safety Guidelines

- Ensure that you are familiar with the basic principles of reloading ammunition.
- Always use the reloading die in accordance with the manufacturer's instructions.
- Keep the reloading area clean and organized to prevent accidents.
- Store the reloading die in a secure location, out of reach of children and vulnerable individuals.
- Wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Be aware of your surroundings and avoid distractions while reloading.

### Specific Safety Precautions for Use

- Inspect the reloading die for any damage or wear before each use. Do not use if damaged.
- Ensure that the die is properly secured in the reloading press before use.
- Use only the recommended cartridges specified for this die (e.g., .223 WSSM).
- Avoid overtightening the die or components, which may cause damage or malfunction.
- Follow recommended load data and guidelines to prevent excessive pressure during reloading.
- Never attempt to modify the reloading die or its components.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure the reloading press is clean and free of debris.
- Insert the NECK SIZING DIE into the reloading press and secure it using the Forster Cross Bolt Die Locking Ring.
- Adjust the die to the desired position according to your reloading specifications.

#### 2. Usage:

- Prepare your cases by cleaning and inspecting them for defects.
- Insert a case into the reloading press and raise the ram to engage the die.
- Follow the manufacturer's instructions for neck sizing to ensure proper fit and performance.
- After sizing, inspect the cases for proper dimensions and any signs of damage.

#### 3. PostUse:

- Clean the reloading die after use to prevent residue buildup.
- Store the die in a safe and dry location.

### Disposal Instructions

- Dispose of any damaged or worn reloading dies in accordance with local regulations.
- Do not dispose of the reloading die in regular household waste.
- Check with local authorities for proper disposal methods for metal and other materials.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please consult the manufacturer's website or customer service.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your NECK SIZING DIES NECK SIZING DIE, .223 WSSM. Always prioritize safety and consult the manufacturer's resources for any additional information.
