

NECK SIZING DIES - FORSTER NECK SIZING DIE, .280 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Neck Sizing will enable the reloader to retain the fire formed dimensions of their cases rather than resizing the entire case. Neck sizing can prolong case life and eliminate some problems associated with excessive headspace. Like the Forster Full Length Sizing Dies, neck dies also included and E-Z Out Expander button assembly and Cross Bolt Lock Ring.

NECK SIZING DIES FORSTER NECK SIZING DIE, .280 REM Safety Instruction Guide

Introduction

Thank you for choosing the Forster Neck Sizing Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read all instructions carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions when using reloading dies.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for any signs of wear or damage.
- Report any unsafe product incidents to the relevant authorities.
- Stay updated on product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Use the die in a wellventilated area to avoid inhaling any dust or fumes.
- Handle all reloading components with care to prevent accidental discharge or injury.
- Ensure that the work area is clean and free from distractions.
- Do not attempt to modify the die or use it in a manner not specified by the manufacturer.
- Be aware of the risks associated with excessive headspace and follow proper neck sizing techniques to avoid potential hazards.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during use.
- Attach the EZ Out Expander button assembly as per the provided instructions.

2. Usage:

- Before starting, inspect the die for any damage or defects.
- Prepare your cases by cleaning and inspecting them for any signs of damage.
- Adjust the die to the appropriate setting for neck sizing according to your specific requirements.
- Insert the case into the die and apply steady pressure to size the neck.
- After sizing, remove the case and inspect it to ensure proper sizing has been achieved.
- Store the die in a safe location when not in use.

Disposal Instructions

- Dispose of any damaged or worn reloading dies in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety concerns or product support, please refer to the contact information provided with the product packaging or visit the manufacturer's website for assistance.

Thank you for your attention to these safety instructions. Your safety is our priority, and we wish you a successful and enjoyable reloading experience with the Forster Neck Sizing Die.
