

# FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 270 WINCHESTER FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 270 WINCHESTER FULL LENGTH SIZING DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

# Safety Instruction Guide for Forster Full Length Sizing Dies

## Introduction

Thank you for choosing the Forster Full Length Sizing Dies. This guide provides important safety information and instructions to ensure safe and effective use of your reloading dies. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Keep the reloading area clean and organized to prevent accidents.
- Store dies and reloading materials out of reach of children and vulnerable individuals.
- Inspect the dies before each use for signs of wear or damage. Do not use damaged dies.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Handle all reloading components with care to avoid spills and accidents.
- Be aware of the potential for lead exposure when handling spent casings and reloaded ammunition.
- Avoid distractions while reloading to maintain focus and prevent errors.
- Use the EZ Out Expander button correctly to ensure case necks remain concentric.
- Do not exceed the recommended load specifications for your reloaded ammunition.
- Ensure that your reloading press is securely mounted and stable before use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is compatible with Forster Full Length Sizing Dies.
- Carefully screw the die into the press until it is secure.
- Adjust the die according to your specific reloading needs, following the manufacturer's instructions.

### 2. Usage:

- Prepare your cases by cleaning and inspecting them for defects.
- Insert the case into the shell holder of your reloading press.
- Operate the press to size the case, ensuring the EZ Out Expander button is properly positioned to maintain concentricity.
- After sizing, inspect the case for proper dimensions and alignment.
- Store the dies in a safe location when not in use.

## Disposal Instructions

- Dispose of any damaged or worn reloading dies in accordance with local regulations.
- Do not dispose of reloading materials or spent casings in regular household waste. Check for local recycling or hazardous waste disposal options.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of Forster Full Length Sizing Dies, please refer to the contact information provided with your product packaging or visit the official Forster Products website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Forster Full Length Sizing Dies. Always stay informed about best practices and safety regulations in your area. Thank you for choosing Forster Products.
