

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 308 NATIONAL MATCH FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Attributes

- Name: [FORSTER PRODUCTS, INC. 308 NATIONAL MATCH FULL LENGTH SIZING DIE](#)

Safety Instruction Guide for Forster Full Length Sizing Dies

Introduction

Thank you for choosing the Forster Full Length Sizing Dies. These precisionengineered tools are designed to help you produce highquality ammunition. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle reloading dies with care and follow all safety protocols associated with ammunition reloading.
- Ensure you are familiar with the reloading process and the specific requirements for the 308 National Match cartridge.
- Keep the dies and all reloading equipment out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
- Inspect dies for any damage before use. Do not use damaged dies.
- Report any unsafe products or incidents to the appropriate authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only compatible cartridges with the Forster Full Length Sizing Dies to avoid malfunction or accidents.
- Ensure that the die is securely mounted in your reloading press before use to prevent movement during operation.
- Avoid overtightening the Forster Cross Bolt Die Locking Ring, as this can cause damage to the die.
- When using the EZ Out Expander button, ensure it is properly positioned to maintain concentricity in the case neck.
- Always follow the manufacturer's guidelines for the specific reloading process for the 308 National Match cartridge.

Instructions for Installation and Usage

Installation

1. **Prepare Your Workspace:** Ensure your reloading area is clean and welllit. Keep all tools and materials organized.
2. **Mount the Die:**
 - Securely attach the Forster Full Length Sizing Die to your reloading press.
 - Use the Forster Cross Bolt Die Locking Ring to fasten the die in place without overtightening.
3. **Check Alignment:** Ensure that the die is aligned correctly with the press and the cartridge holder.

Usage

1. **Prepare Cases:** Clean and inspect your brass cases before reloading.
2. **Insert Case:** Place the case into the shell holder of the press.
3. **Adjust the Die:**
 - Set the die to the appropriate depth according to the reloading specifications for the 308 National Match cartridge.
 - Use the EZ Out Expander button to expand the neck of the case, ensuring it is positioned higher in the neck area for optimal alignment.
4. **Reloading Process:** Follow the standard reloading process, paying attention to the following:
 - Monitor the pressure applied during sizing to avoid damaging the case.

- Keep a steady pace and avoid rushing through the reloading process.
5. **Final Inspection:** After reloading, inspect the finished round for any irregularities before use.

Disposal Instructions

- Dispose of any damaged or unused reloading dies in accordance with local regulations for metal waste.
- Ensure that all spent brass cases and other reloading materials are disposed of properly to prevent environmental harm.

Contact Information for Further Support

For any inquiries or further support regarding the Forster Full Length Sizing Dies, please refer to the manufacturer's contact resources.

Thank you for your attention to these safety guidelines. Reload responsibly and enjoy your reloading experience with Forster products.
