

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 6.5-284 WINCHESTER FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Safety Instruction Guide for Forster Full Length Sizing Dies

Introduction

Thank you for choosing the Forster Full Length Sizing Dies. These reloading dies are designed to provide excellent quality and precision for your reloading needs. It is important to follow safety guidelines to ensure safe and effective use. This guide outlines important safety information, precautions, and instructions for proper use.

General Safety Guidelines

- Ensure safe handling and use of all reloading equipment, including dies.
- Be aware of potential risks associated with reloading, such as injuries from improper handling or malfunctioning equipment.
- Always keep reloading dies out of reach of children and vulnerable individuals.
- Regularly check for updates on product recalls and safety information through the EU Safety Gate platform.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading dies.
- Inspect the die for any signs of damage or wear before use. Do not use damaged equipment.
- Ensure that the workspace is clean and free from obstructions to prevent accidents.
- Use the dies only for their intended purpose as specified by the manufacturer.
- Keep hands and other body parts away from moving parts during operation.
- Avoid distractions while reloading to maintain focus and safety.

Instructions for Installation and Usage

• Installation:

1. Ensure that your reloading press is securely mounted and stable.
2. Carefully remove the Forster Full Length Sizing Die from its packaging.
3. Install the die into the reloading press according to the manufacturer's instructions.
4. Tighten the Forster Cross Bolt Die Locking Ring securely to prevent movement during use.

• Usage:

1. Prepare the cases by cleaning and inspecting them for any defects.
2. Adjust the die according to the specifications for your cartridge (6.5 x 284 mm Winchester).
3. Insert the case into the shell holder of the reloading press.
4. Operate the press to size the case, ensuring that the EZ Out Expander button is positioned correctly to maintain concentricity.
5. After sizing, inspect the case for proper dimensions and any signs of damage.
6. Store the die in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any damaged or unusable reloading dies according to local regulations for hazardous materials.
- Do not dispose of dies in regular trash. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding safety and usage of the Forster Full Length Sizing Dies, please refer to the manufacturer's website or your point of purchase for additional support.

By following these guidelines, you can ensure a safe and effective reloading experience. Thank you for choosing Forster Products, Inc.
