

50 BMG FLASHHOLE DEBURRING TOOL - SINCLAIR INTERNATIONAL

50 BMG FLASH HOLE TOOL

[Reloading](#) > [Case Preparation](#) > [Flash Hole Deburring Tools](#)

Many years ago before the 50 BMG shooting craze was even in this infancy, we manufactured a combination of primer pocket and flash hold tools for the 50 BMG. Since then, the popularity of the Big Fifty has grown by leaps and bounds. Our customers have been requesting that we bring these tools back and we've answered with two tools that fit the bill. The BMG Flash Hole Toll features an integral 50 caliber pilot stop and works for most BMG based cartridges. The tool has a length adjustable double-ended cutter that can be chucked in a drill for use under power.

50 BMG Flashhole Deburring Tool Safety Instructions

Introduction

Thank you for choosing the 50 BMG Flashhole Deburring Tool from Sinclair International. This tool is designed for safe and effective use in deburring flash holes of 50 BMG cartridges. To ensure your safety and the longevity of the tool, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the tool in accordance with the manufacturer's instructions.
- Ensure that the work area is clean, dry, and well lit.
- Keep the tool out of reach of children and unauthorized users.
- Do not use the tool for any purpose other than its intended use.
- Regularly inspect the tool for wear and damage before each use.
- If the tool is damaged, do not attempt to repair it; replace it instead.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves.

Specific Safety Precautions for Use

- Always secure the tool in a drill or holder before use.
- Do not place fingers or hands near the cutting area while the tool is in operation.
- Use the tool only with 50 BMG cartridges or compatible BMGbased cartridges.
- Avoid using excessive force during operation; let the tool do the work.
- Do not operate the tool in wet or damp conditions.
- Ensure that the drill is properly secured and stable before starting.
- Be cautious of sharp edges and burrs when handling the tool and cartridges.

Instructions for Installation and Usage

1. Installation:

- Insert the doubleended cutter into the drill chuck securely.
- Adjust the length of the cutter as needed for your specific application.
- Ensure that the pilot stop is properly aligned with the cartridge.

2. Usage:

- Select a 50 BMG cartridge or compatible BMGbased cartridge.
- Place the cartridge securely in a stable holder or vise.
- Align the pilot stop of the tool with the flash hole of the cartridge.
- Start the drill at a low speed to ensure controlled operation.
- Gradually increase the speed as needed, allowing the tool to deburr the flash hole.
- After use, turn off the drill and carefully remove the tool from the cartridge.

Disposal Instructions

- Dispose of the tool in accordance with local regulations for metal tools and equipment.
- If the tool is no longer usable, consider recycling it if possible.
- Do not dispose of the tool in regular household waste.

Contact Information for Further Support

For any inquiries related to safety, usage, or product support, please contact the manufacturer directly through the provided contact information included with your product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your 50 BMG Flashhole Deburring Tool. Thank you for your attention to safety, and enjoy your reloading experience!
