Safety Instruction Guide for CUSTOM GRADE RIFLE FULL LENGTH DIE SETS 3030 WINCHESTER FULL LENGTH DIE SET

Introduction

Thank you for choosing the Hornady Custom Grade 2Die Set for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your die set. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the basic principles of reloading ammunition before using this product.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading.
- Keep the work area clean and free from distractions to maintain focus while handling reloading equipment.
- Store all reloading components, including dies, in a secure location away from children and unauthorized users.
- Regularly inspect your equipment for wear and damage. Do not use damaged components.
- Follow all local laws and regulations regarding the reloading of ammunition.

Specific Safety Precautions for Use

- Only use the die set with the specified cartridge, which is 3030 Winchester.
- Ensure that your reloading press is compatible with the die set before installation.
- Do not exceed the recommended load data for the cartridges you are reloading.
- Always use the proper tools and techniques when adjusting the dies to avoid injury or damage.
- Avoid wearing loose clothing or jewelry that could become caught in machinery during the reloading process.
- Keep all reloading components, including powders and primers, in their original containers and store them according to manufacturer instructions.

Instructions for Installation and Usage

1. Installation of the Die Set

- Unpack the die set and verify that all components are present.
- Clean the dies with a suitable solvent to remove any protective oils before use.
- Install the full length sizing die into your reloading press by screwing it into the appropriate location. Ensure it is securely fastened.
- Install the bullet seating die in the same manner, ensuring it is properly aligned.

2. Reloading Process

- Begin by resizing the brass cases using the full length sizing die. Follow the manufacturer's instructions for the proper operation of your reloading press.
- After resizing, inspect the cases for any signs of damage or wear.
- Measure and prepare the appropriate amount of powder as per the load data specific to 3030 Winchester cartridges.
- Carefully fill each case with the measured powder, ensuring no spills or overfilling occur.
- Insert the bullet into the case mouth and use the bullet seating die to securely seat the bullet to the desired depth.

3. **PostReloading**

- Inspect each completed cartridge for consistency and quality.
- Store reloaded ammunition in a cool, dry place, clearly labeled with the load information.
- Clean and maintain your die set and reloading press after every use to ensure longevity and performance.

Disposal Instructions

- Dispose of any unused or damaged reloading components according to local regulations.
- Do not throw away reloaded ammunition unless it is confirmed to be defective or unsafe.
- Follow your local laws for the disposal of hazardous materials, including primers and powders.

Contact Information for Further Support

For any questions or concerns regarding the use of your CUSTOM GRADE RIFLE FULL LENGTH DIE SETS 3030 WINCHESTER FULL LENGTH DIE SET, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable reloading experience. Thank you for your attention to safety.
