# Safety Instruction Guide for FULL LENGTH DIE SETS 300 WINCHESTER MAGNUM FULL LENGTH DIE SET

## Introduction

Thank you for choosing the Redding FL Die Sets, specifically designed for the 300 Winchester Magnum cartridge. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your die set. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure that you are familiar with the safe handling and operation of reloading equipment.
- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Keep all reloading components, including dies and tools, out of reach of children and unauthorized individuals.
- Store the die set in a secure location when not in use to prevent accidents.
- Regularly inspect your die set for signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading and storage.

## Specific Safety Precautions for Use

- Always use the die set in a wellventilated area to avoid inhaling any dust or particles.
- Never exceed the maximum load specifications for the 300 Winchester Magnum cartridge as indicated in reputable reloading manuals.
- Do not mix different types of powders or components in the same batch of ammunition.
- Ensure that the die set is properly mounted and secured in your reloading press before use.
- Avoid distractions while reloading to maintain focus and prevent accidents.
- If you experience any issues during the reloading process, stop and address the problem before continuing.

## Instructions for Installation and Usage

### 1. Installation of the Full Length Sizing Die:

- Remove the die from its packaging and inspect for any damage.
- Insert the sizing die into the reloading press and tighten securely.
- Adjust the die to the appropriate height as per the manufacturer's instructions.

### 2. Installation of the Standard Seating Die:

- Remove the seating die from its packaging and inspect for any damage.
- Insert the seating die into the reloading press and tighten securely.
- Adjust the die to the appropriate height based on the desired bullet seating depth.

### 3. Reloading Process:

- Start by resizing the brass cases using the full length sizing die.
- After resizing, clean the cases to remove any debris or lubricant.
- Proceed to charge the cases with the appropriate amount of powder.
- Finally, use the seating die to place the bullets into the charged cases, ensuring proper seating depth.

#### **4. PostReloading:**

- Inspect each round for proper assembly and any visible defects.
- Store the completed ammunition in a safe and secure location.

## **Disposal Instructions**

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not throw away ammunition components in regular trash. Instead, follow local guidelines for hazardous waste disposal.
- Recycle packaging materials where possible.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact information provided on the product packaging or website.

By following these guidelines, you can ensure a safe and effective reloading experience with your Redding FL Die Sets. Always prioritize safety and consult reputable resources for further information on ammunition reloading practices.
