

SEATER DIES - REDDING SEATER DIE 416 RUGER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Seating Die includes bullet guide, built-in crimp ring and the proper seating plug. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Safety Instruction Guide for SEATER DIES REDDING SEATER DIE 416 RUGER

Introduction

Thank you for choosing the SEATER DIES REDDING SEATER DIE 416 RUGER. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read and follow these instructions carefully to minimize risks and ensure a safe reloading experience.

General Safety Guidelines

- Always handle all reloading equipment with care and respect.
- Ensure that your work area is clean, welllit, and free of distractions.
- Keep the reloading die out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves while reloading.
- Familiarize yourself with the reloading process and the specific requirements for the 416 Ruger cartridge.
- Regularly inspect your reloading equipment for wear or damage.
- Follow the manufacturer's instructions for all components used in the reloading process.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended load data for the 416 Ruger cartridge.
- Ensure that the die is securely installed in the reloading press before use.
- Always check that the bullet seating plug is properly adjusted before starting the reloading process.
- Avoid using damaged or wornout dies, as this may lead to malfunction or accidents.
- Do not modify the die in any way, as this may compromise its safety and functionality.
- Keep fingers and other body parts clear of the die during operation to prevent injury.
- Be aware of the potential hazards associated with the materials used in reloading, such as lead exposure.

Instructions for Installation and Usage

1. Installation of the Die:

- Ensure the reloading press is turned off and unplugged before installation.
- Remove any previous dies from the press.
- Insert the SEATER DIES REDDING SEATER DIE 416 RUGER into the press, ensuring it is securely tightened.
- Adjust the seating plug according to the bullet specifications for the 416 Ruger cartridge.

2. Usage of the Die:

- Prepare your reloading components (cases, primers, powder, and bullets).
- Follow the reloading data for the 416 Ruger cartridge to determine the correct powder charge.
- Insert a primed and resized case into the press.
- Place the bullet on the case mouth and operate the press to seat the bullet to the desired depth.
- Inspect the finished cartridge for proper seating and crimping.

3. PostUse:

- Clean the die after use to remove any residue or debris.
- Store the die in a secure location, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Ensure that lead and other hazardous materials are disposed of at designated collection points.
- Do not dispose of reloading materials in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or the usage of the SEATER DIES REDDING SEATER DIE 416 RUGER, please consult the manufacturer's website or contact their customer service for assistance.

By following these guidelines, you can ensure a safe and effective reloading process. Thank you for your attention to safety.
