

BODY DIES - REDDING BODY DIE 7MM IHMSA

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

Attributes

- Name: [REDDING BODY DIE 7MM IHMSA](#)

Safety Instruction Guide for BODY DIES REDDING BODY DIE 7MM IHMSA

Introduction

Thank you for choosing the BODY DIES REDDING BODY DIE 7MM IHMSA. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read the entire guide carefully before using the product.

General Safety Guidelines

- Ensure proper handling of the die to avoid injury.
- Keep the die out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, such as safety glasses and gloves, when resizing cases.
- Use the die only for its intended purpose as specified in this guide.
- Regularly inspect the die for signs of wear or damage before each use.
- Store the die in a safe and dry location when not in use.

Specific Safety Precautions for Use

- Only use with 7 mm IHMSA cartridges as specified.
- Do not attempt to resize cases that are excessively damaged or malformed.
- Follow the manufacturer's instructions for operating the die carefully.
- Ensure that your reloading equipment is compatible with the die.
- Avoid overtightening the die during installation to prevent damage.
- Be cautious of hot surfaces and sharp edges when handling the die.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is clean and free of debris.
- Insert the BODY DIE into the press according to the manufacturer's instructions.
- Securely tighten the die in place without overtightening.

2. Usage:

- Prepare the cases to be resized by cleaning and inspecting them for any defects.
- Place the case in the die and ensure it is properly aligned.
- Operate the press to resize the case body and bump the shoulder position.
- After using the body die, follow up with a neck die to achieve proper neck tension.
- Inspect the resized case for proper dimensions before using it.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local regulations.
- Recycle materials where possible, ensuring that hazardous materials are handled appropriately.
- Do not dispose of the die in regular household waste.

Contact Information for Further Support

For any safety inquiries or further support regarding the BODY DIES REDDING BODY DIE 7MM IHMSA, please

refer to the manufacturer's contact details provided with your product.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the BODY DIES REDDING BODY DIE 7MM IHMSA. Always prioritize safety and adhere to all guidelines to minimize risks associated with reloading practices. Thank you for your attention to these important safety measures.
