

# NECK SIZING DIES - REDDING NECK SIZING DIE 300 SAVAGE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 300 SAVAGE](#)

# Safety Instruction Guide for Redding Neck Sizing Die 300 Savage

## Introduction

Thank you for choosing the Redding Neck Sizing Die 300 Savage. This guide provides important safety instructions and usage guidelines to ensure safe and effective use of this product. Please read this document carefully and keep it for future reference.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment and the specific features of the Redding Neck Sizing Die.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the work area clean and free from distractions to prevent accidents.
- Store the die and all reloading components in a secure, dry location, away from children and unauthorized users.
- Regularly inspect the die for wear or damage. Do not use if damaged.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Only use the Redding Neck Sizing Die with the specified cartridge, the 300 Savage.
- Do not interchange fired cases between different rifles, as this can lead to unsafe conditions.
- Ensure that the die is properly set up and adjusted before use to avoid misfires or accidents.
- Avoid overtightening the die when installing it in the reloading press, as this may cause damage or malfunction.
- Follow all recommended procedures for neck sizing to maintain accuracy and prolong brass life.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is clean and in good working condition.
- Insert the Redding Neck Sizing Die into the press according to the manufacturer's instructions.
- Secure the die in place without overtightening.

### 2. Usage:

- Prepare your fired cases by cleaning them thoroughly before sizing.
- Adjust the die according to the specific requirements for neck sizing. Refer to the die's instruction manual for detailed settings.
- Place the case into the shell holder of the press and raise the ram to size the neck.
- After sizing, inspect the case for proper neck tension and overall condition.
- Repeat the process for all cases, ensuring consistent results.

### 3. PostUsage:

- Clean the die after use to prevent corrosion and maintain performance.
- Store the die in its original packaging or a designated storage container.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste. Follow local guidelines for hazardous materials.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the manufacturer's website or contact their customer support for assistance. Ensure that you have the product model and any relevant details available for a more efficient response.

Thank you for prioritizing safety while using the Redding Neck Sizing Die 300 Savage. Your adherence to these guidelines helps ensure a safe and effective reloading experience.
