

# NECK SIZING DIES - REDDING NECK SIZING DIE 223 WSSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 223 WSSM](#)
- Manufacturer: [REDDING](#)
- Product no.: 749005316

# Safety Instruction Guide for Redding Neck Sizing Die 223 WSSM

## Introduction

Thank you for choosing the Redding Neck Sizing Die 223 WSSM. This product is designed to enhance your reloading experience by ensuring precise neck sizing for your bottleneck cases. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always handle reloading equipment with care and follow all safety protocols.
- Ensure that you are familiar with the operation of your reloading press and associated equipment before using this die.
- Store the die in a dry and secure location, away from children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- If you experience any issues during use, cease operation immediately and seek assistance.

## Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):**
  - Always wear safety glasses to protect your eyes from debris.
  - Consider wearing gloves to protect your hands from sharp edges and brass shavings.
- **Work Area:**
  - Ensure your work area is welllit and free from clutter.
  - Use a stable work surface to prevent accidents.
- **Handling Brass Cases:**
  - Do not interchange fired cases between different rifles as this may lead to safety hazards.
  - Inspect all brass cases for damage before sizing.
- **Die Usage:**
  - Follow the manufacturer's instructions for setting up and using the neck sizing die.
  - Do not force the die if it does not fit properly; check for obstructions or misalignment.

## Instructions for Installation and Usage

### 1. Setup:

- Securely mount the reloading press on a stable surface.
- Insert the Redding Neck Sizing Die into the press according to the manufacturer's instructions.

### 2. Neck Sizing:

- Place the fired brass case into the shell holder.
- Slowly raise the ram of the press to engage the die with the neck of the case.
- Carefully lower the ram to remove the case from the die.
- Repeat as necessary for additional cases.

### 3. **PostUse:**

- After use, clean the die to remove any brass residue.
- Store the die in its original packaging or a safe location to avoid damage.

## **Disposal Instructions**

- Dispose of any damaged or worn dies in accordance with local regulations.
- Recycle brass cases and other materials whenever possible.
- Do not dispose of the die in regular household waste.

## **Contact Information for Further Support**

For any questions regarding the Redding Neck Sizing Die 223 WSSM or safety concerns, please contact the manufacturer or refer to the product documentation for further assistance.

By following these guidelines and precautions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die 223 WSSM. Thank you for prioritizing safety in your reloading practices.
