

WILSON SEATER BLANK - 6MM SEATER DIE BLANK

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. These die blanks allow the reloader to have a custom die made to their exact dimensions.

Safety Instruction Guide for WILSON SEATER BLANK 6MM SEATER DIE BLANK

Introduction

Thank you for choosing the WILSON SEATER BLANK 6MM SEATER DIE BLANK. This product is designed for precision bullet seating, particularly favored by benchrest shooters. It is essential to follow safety guidelines to ensure safe and effective use of this product. This guide provides comprehensive safety instructions, precautions, and best practices to help you use the die blank safely and effectively.

General Safety Guidelines

- Ensure that you read and understand all instructions and safety information before using the product.
- Always wear appropriate protective equipment, such as safety glasses and gloves, while handling ammunition and reloading components.
- Store the die blank in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the die blank for any signs of wear or damage before use.
- Report any unsafe products or incidents to relevant authorities to help keep others safe.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use of the die blank may lead to misalignment of the bullet and cartridge case, resulting in unsafe ammunition.
 - Ensure that the die blank is compatible with your reloading equipment to avoid malfunctions.
- **Avoiding Hazards:**
 - Always ensure that the reloading workspace is clean, organized, and free from distractions.
 - Do not exceed the recommended specifications for the ammunition you are reloading.
 - Never attempt to modify the die blank or use it for purposes other than intended.
- **Age Specific Warnings:**
 - This product is intended for use by adults only. Keep out of reach of children and individuals who are not familiar with reloading practices.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure your reloading press is securely mounted on a flat, stable surface.
 2. Remove any existing dies from the press before installing the die blank.
 3. Carefully screw the die blank into the press, ensuring it is tightened securely but not overly tightened to avoid damage.
 4. Adjust the seating stem to the desired depth for bullet seating.
- **Usage:**
 1. Place a cartridge case into the reloading press.
 2. Insert a bullet into the case mouth.
 3. Activate the press to push the bullet into the case. Ensure that the bullet is aligned correctly.
 4. Inspect the completed round for proper seating depth and alignment.
 5. Repeat the process for additional cartridges, maintaining attention to detail for each round.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations for hazardous waste.
- Do not throw the die blank or any reloading components in regular trash. Instead, follow local guidelines for safe disposal.
- Recycle materials where possible, ensuring that any hazardous materials are handled appropriately.

Contact Information for Further Support

For any questions or concerns regarding the WILSON SEATER BLANK 6MM SEATER DIE BLANK, please refer to the manufacturer's website or contact your local distributor for assistance. Always consult experts if you are unsure about any aspect of reloading or product safety.

Thank you for your attention to these safety instructions. Your adherence to these guidelines will help ensure a safe and enjoyable reloading experience.
